<b>Revision</b>	<b>Date</b>	<b>Description</b>
0	27 <sup>th</sup> April 2016	Deadline 3 submission

The Applicant's response to comments submitted at Deadline 3 makes reference to the contents of the DCO using the numbering as at revision 3A for consistency. On the advice of PINs officers the Applicant has submitted revision 4 of the DCO at Deadline 3 which incorporates all of the changes which the Applicant proposes to make should the request to remove plots from the scope of compulsory acquisition made at Deadline 2 be accepted. Revision 4 also includes changes to the requirements in Part 2 of Schedule 1 following discussion with NRW which affects the numbering of the requirements. Given that the change in numbering has the potential to cause some confusion this table is submitted cross-referencing the numbering from revision 3A and used in responses to the numbering included in revision 4.
