Part 3.....179
Part 4.....287
Part 5.....288

Introduction

This Book of Reference (“BoR”) accompanies the proposed Development Consent Order (“the Order”) for the East Anglia ONE North Offshore Windfarm (“the authorised project”), as required by Regulation 5(2)(d) of the Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009 (“the APFP Regulations”). It describes all the land, and identifies all the interests, affected by the Order.

The land described in this BoR, which is to be subject to powers of compulsory acquisition and/or temporary possession, is required to deliver the works comprising the authorised project which are described in detail in Part 1 of Schedule 1 of the Order and shown on the works plans.

Every parcel of land that is affected is identified on a plot by plot basis and a unique number has been ascribed to each plot. The plots are shown on the land plans which accompany the Order.

This BoR is comprised of five Parts, in accordance with Regulation 7(1) of the APFP Regulations, as follows:

- (a) Part 1 contains the names and addresses of those who own, lease, occupy or have another interest in the land that will be affected by the authorised project and the rights contained in the Order;
- (b) Part 2 contains the names and addresses of those whose land, while not directly affected by the authorised project, may be entitled to claim compensation for loss resulting from the implementation of the Order and use of the authorised project;
- (c) Part 3 contains the names and addresses of those entitled to enjoy easements or other private rights which it is proposed may be extinguished, suspended or interfered with in connection with the authorised project, pursuant to the Order;
- (d) Part 4 identifies plots in which there is a Crown interest that will be affected by the authorised project and the rights contained in the Order (please note that these plots will not be subject to powers of compulsory acquisition); and
- (e) Part 5 identifies plots that will be affected by the authorised project and the rights contained in the Order which constitute “special category land” (meaning land which forms all or part of a common, open space, National Trust land held inalienably and fuel and field garden allotments),

“replacement land” and plots of land, the acquisition of which is subject to Special Parliamentary Procedure under particular circumstances.

The Order seeks powers to compulsorily acquire land and new rights (both temporary and permanent) for the purposes of the construction and operation of the authorised project.

The majority of the plots identified in Part 1 of the BoR will be subject to the acquisition of Permanent Rights (including restrictive covenants) pursuant to Article 20 (Compulsory acquisition of rights) and Schedule 7 (Land in which only new rights etc. may be acquired) of the Order . These plots are shown coloured blue on the land plans.

A number of the plots identified in Part 1 of the BoR will be subject to freehold acquisition pursuant to Article 18 (Compulsory acquisition of land) of the Order. These plots are shown coloured pink on the land plans.

The land shown coloured blue and pink on the land plans will also be subject to powers of temporary possession for the purpose of carrying out the authorised project (by virtue of Article 26 (Temporary use of land for carrying out the authorised project)). These plots are listed in Schedule 9 (Land of which temporary possession may be taken) of the Order.

Plots that are subject to powers of temporary possession only, such as for the purpose of access to and/or use as a temporary construction compound, are also listed in Schedule 9 (Land of which temporary possession may be taken) of the Order and are shown coloured brown on the land plans.

By virtue of Article 27 (Temporary use of land for maintaining authorised project) of the Order, any land within the Order limits which is reasonably required for the purpose of maintaining the authorised project may be entered and/or temporarily possessed.

Categories of New Rights sought under the East Anglia One North Offshore Wind Farm Order 201X

The descriptions of the New Rights sought by the Undertaker set out in the Table of New Rights below shall apply in the column headed “extent, description and situation of the land” in Part 1 of this Book of Reference. For this purpose the letter in column 1 of the Table of New Rights is used to indicate the New Right(s) sought over each relevant plot of land. The details are described in column 2 of the Table of New Rights. The New Rights are sought for the purposes of construction, installation, operation, maintenance and decommissioning of the authorised project.

In the Table of New Rights:

“adjoining land” means such other parts of the land within the Order limits as may be required for the authorised project;

“authorised project” has the meaning defined in the East Anglia One North Offshore Wind Farm Order 201X

“Cables” means collectively underground electricity cables together with telemetry and fibre optic lines, ducting, earthing measures, thermal protection, temperature sensing measures, cathodic protection and heat dissipation measures, and other apparatus, bedding measures, protection measures, safety measures and other equipment ancillary to the purposes of transmitting electricity along such electricity cables;

“Jointing Installations” means collectively jointing bays, cross bonding leads, cross bonding pits, link boxes, inspection chambers, covers for pits, link boxes and chambers, and marker posts;

“Land” means the relevant plot shown on the land plan and described in this Book of Reference;

“Order land” means the land shown on the land plan which is within the limits of land to be acquired or used and described in this Book of Reference;

“terrestrial work activities” mean laying down, constructing, installing, adjusting, altering, testing, maintaining, repairing, renewing, upgrading, surveying, cleansing, relaying, connecting into, diverting, protecting, making safe, making incapable of operation, replacing and removing any part or parts of the authorised project.

| Table of New Rights | |
|---------------------|---|
| Right | Right description |
| A | <ol style="list-style-type: none"> 1. the right to install the Cables by the use of directional drilling or other trenchless techniques only; 2. the right to retain and use the Cables and for the purposes of the transmission of electricity and telecommunications; 3. the right to benefit from continuous vertical and lateral support for the Cables and Jointing Installations; 4. a restrictive covenant over the land for the benefit of the remainder of the Order land to: <ol style="list-style-type: none"> a) to prevent anything to be done in or upon the Land or any part thereof for the purpose of the erection of any buildings or construction erection or works of any kind (including the foundations or footings thereto); b) to prevent anything to be done by way of hard surfacing of the Land with concrete of any kind or with any other material or surface whatsoever without the consent in writing of the Undertaker (such consent not to be unreasonably withheld or delayed if the proposed surfacing would not cause damage to relevant part of the authorised project nor make it materially more difficult or expensive to maintain the authorised project); c) to prevent anything to be done by way of excavation of any kind in the Land nor any activities which increase or decrease ground cover or soil levels in any manner whatsoever without the consent in writing of the Undertaker save as are reasonably required for agricultural activities or are required to |
