Dear Mr Smith,

I am aware that Scottish Power Renewables have booked Snape Maltings for the upcoming Open Floor Hearings.

I understand that they are currently opening their venue for public performances with well designed social distancing and other Covid compliance measures. With this in mind I ask you to consider holding the Open Floor Hearings due to take place from 7 – 9th October at Snape Maltings.

I am not in any way competent using IT, I do have a familiarisation session booked for tomorrow, 29th September, where I will be assisted by a neighbour, however this person will not be able to be present with me on the days of the hearings. As I have been granted a slot to speak I am very concerned that on the day my lack of competence with the technology will let me down and my right to speak will be compromised. I have a clear documented interest in Scottish Power Renewables application concerning Rights Sought over Land as I am an assumed owner Ref: RR-512. I do not wish to fail in my representation by default.

Regards.

Mike Lewis.
