Subject: Re: OFH3 - Agenda item 6. Review of issues and actions arising
Date: 09 October 2020 14:28:36

Thank you for conducting the hearings this week in such a professional fashion. Although not selected to speak, I watched the livestream with great interest.

Re: OFH3 - Agenda item 6. Review of issues and actions arising

In your final review of Day 3, I believe you omitted one action point that Mr Hockley, following Mrs Jill Hubbard's presentation, said would be put to the Applicant:

To comment on the feasibility of using a trenchless method to cross the B1122 Aldeburgh Road, Aldringham.

I am supposing that might involve using micro-tunnelling or micro-boring techniques to minimise unnecessary disturbance at either end of a tunnel.

This idea was put to the Applicant previously during consultation, also with regard to taking cables under the River Hundred and also the protected Woodland between Fitches Lane and Aldringham Court. This suggestion did not meet with any enthusiasm on their part. I seem to recall that we were told the Applicant had no expertise or experience in such micro-tunnelling techniques.

Best, Bill Halford
