PINS Ref: EA1N-EN010077 and EA2-EN010078

My ref. ID numbers 20023133/20023080

Dear Mr Rynd Smith and the Planning Authority Team,

I would like to take issue with the National Grid's response to the Examining Authority written questions where they have stated they will not attend ISH 1 and 2 and CAH1 and have not fully answered the Examining Authority's written questions by being evasive.

We believe and sincerely hope that the Examining Authority cannot seriously intend to continue with this examination when such a major would-be participant as National Grid is determined not to participate? If I as a member of the public refused to answer such questions my application would rightly be dismissed.

We are all looking to you the Examining Authority to do all in your power and if necessary with the support of the Secretary of State to insist/ summon/subpoena National Grid to attend the issue specific hearings and answer fully all written questions specifically 1.0 16 and 1.0 17 which reference all six additional massive energy projects to the grid at Friston.

We hope our faith in you is justified otherwise our confidence in the Planning process will be shattered.

Yours sincerely

Sarah Courage (Mrs)
