Dear Sirs

**East Anglia ONE North Limited (the “Applicant”)
The Proposed East Anglia ONE North Offshore Windfarm Order
Application Ref. EN010077**

Additional Submission: Revised Draft Development Consent Order and Schedule of Changes

We refer to the Planning Inspectorate’s Procedural Decision 23 dated 19 November 2020 to accept the Applicant’s application for the inclusion of additional land (the “**Proposed Provision**”) into the Examination (“**Procedural Decision 23**”). In accordance with the requirements of Regulations 7 and 8 of the Infrastructure Planning (Compulsory Acquisition) Regulations 2010 (“**CA Regulations**”), notice of the Proposed Provision is required to include details of where the revised draft Development Consent Order can be viewed. We therefore enclose the following documents:

1. Draft Development Consent Order (version 2);
2. Draft Development Consent Order (tracked); and
3. Schedule of Changes to the Draft Development Consent Order (version 1).

In order to ensure compliance with the CA Regulations, we kindly request that these are published on the Planning Inspectorate’s website in advance of 7 December 2020 being the date on which the first notice will be published in the newspapers.

The revised Draft Development Consent Order only deals with the changes associated with the application for the inclusion of additional land. The Applicant will submit a comprehensive revised Draft Development Consent Order and Schedule of Changes at Deadline 3 on 15 December 2020 which will include amendments to address points raised in the Examining Authorities’ First Written Questions and amendments agreed with stakeholders as part of the Statement of Common Ground process.

All of the documents enclosed with this submission are designed to be viewed electronically.

We would be grateful if you could acknowledge safe receipt of this letter and the enclosures.
