---

Please see below for a submission from Mike Caplin on behalf of Friston Parish Council:

All lives matter and the lives of people living in Suffolk, East Suffolk, all matter. Which means that those fiddling with our environment, Suffolk County Council, East Suffolk Council and any organisation involved with energy generation and distribution whether generated by nuclear energy or wind power should STOP the pursuit of individual discussions about generation, landing and distribution and focus on the issues of quality of life, health, and longevity of the people in the region who will be affected by energy developments. They should think about what the planned long term developments will cause the loyal, peaceful, contributing members of the area whose lives are given zero value in the current plans. This is why the Parish Council of little Friston totally reject as inadequate, insufficient and inefficient the outlined future plans with regard to electric generation using the land area of Friston (and, by the way, Snape, Aldeburgh, Thorpeness, Aldringham and Knodishall ,oh and also, Eastbridge, Theberton, Leiston, Dunwich, the Alde estuary parishes, the Dunwich, Rendlesham and Tunstall forest areas, the Debenside, Orford areas and, indeed all the land areas at risk of development for electrical generation and distribution throughout the East Suffolk area.

Kind regards,

Phillippa Welby

Parish Clerk

Friston Parish Council

Bernard House, Narrow Way, Wenhaston, Suffolk, IP19 9EJ

01502478094
