## 6 .3 Relationship of Offshore Plans Secured by the DCO

#### 6.1 Introduction

- 1. This appendix illustrates the relationship of offshore plans secured by the draft DCO for the proposed East Anglia ONE North project.
- 2. The list of conditions and associated outline management plans are illustrated below.

#### Relationship of Offshore Plans secured by the DML

(under Schedule 13, Part 2 – Conditions)
Generation assets

Condition 16

UXO clearance

16 (1)(a) method statement for UXO clearance

16 (1)(a) method statement for UXO clearance

16 (1)(a) method statement for UXO clearance

16 (1)(a)(iii) a plan showing the area in which UXO clearance activities are proposed

16 (1)(a)(iii) a programme of works

16 (1)(a)(iii) a programme of works

16 (1)(c) Southern North Sea SAC Site Integrity Plan for UXO Clearance which accords with the principle set out in the in principle Southern North Sea SAC Site Integrity Plan

17(1)(a) Design plan

17 (1)(b) Construction programme

17 (1)(c) **Monitoring plan**Which accords with the in principle monitoring plan

17 (1)(d) **Construction method statement** in accordance with the construction methods assessed in the environmental statement

17 (1)(e) Project environmental management plan

17 (1)(f) Marine mammal mitigation protocol in accordance with the draft marine mammal mitigation protocol

17 (1)(g) Written scheme of archaeological investigation
In accordance with the outline written scheme of investigation
(offshore)

17 (1)(h) Offshore operations and maintenance plan in accordance with the outline offshore operations and maintenance plan

17 (1)(i) Aids to navigation management plan

17(1)(j) A **Sabellaria reef management plan**, in accordance with the outline Sabellaria reef management plan

17(2) Southern North Sea SAC Site Integrity Plan for Piling Which accords with the principles set out in the in principle Southern North Sea SAC Site Integrity Plan

#### 17(4) Written scheme of investigation

in respect of pre-construction archaeological investigations, UXO clearance and pre-commencement material operations in accordance with the details set out in the outline written scheme of investigation (offshore)

21 (4) Construction monitoring must include **traffic monitoring** in accordance with the **outline navigation monitoring strategy** 

22 (2)(d) **post-construction traffic monitoring** in accordance with the **outline navigation monitoring strategy** 

17 (1)(d)(ii)(bb) Cable laying plan

17 (1)(d)(ii)(cc) Cable monitoring plan

17 (1)(d)(iii) details of scour protection management and cable protection

17 (1)(e)(i) Marine pollution contingency plan

17 (1)(e)(ii) Chemical risk assessment

17(1)(e)(iii) Waste management and disposal arrangements

17 (1)(e)(v) Fisheries liaison and coexistence plan in accordance with the outline fisheries liaison and coexistence plan

17 (1)(e)(vi) A best practice protocol for minimising disturbance to red-throated diver

Condition 21
Construction monitoring

Condition 17
Preconstruction plans and

documentation

Condition 22
Post construction

#### Relationship of Offshore Plans secured by the DML

(under Schedule 14, Part 2 – Conditions)
Transmission assets

12 (1)(a) method statement for UXO clearance

12 (1)(a)(ii) a plan showing the area in which UXO clearance activities are proposed

12 (1)(b) marine mammal mitigation protocol in accordance with the draft marine mammal mitigation protocol

12 (1)a(iii) a programme of works

12 (1)(c) Southern North Sea SAC Site Integrity Plan for UXO Clearance which accords with the principle set out in the in principle Southern North Sea SAC Site Integrity Plan

13(1)(a) Design plan

13 (1)(b) Construction programme

13 (1)(c) Monitoring plan
Which accords with the in principle monitoring plan

13 (1)(d) Construction method statement in accordance with the construction methods assessed in the environmental statement

13 (1)(e) Project environmental management plan

13 (1)(f) Marine mammal mitigation protocol in accordance with the draft marine mammal mitigation protocol

13 (1)(g) Written scheme of archaeological investigation in accordance with the details set out in the outline offshore written scheme of investigation

13 (1)(h) Offshore operations and maintenance plan in accordance with the outline offshore operations and maintenance plan

13 (1)(i) Aids to navigation management plan

13(1)(j) A **Sabellaria reef management plan**, in accordance with the outline Sabellaria reef management plan

13(2) Southern North Sea SAC Site Integrity Plan for piling which accords with the principles set out in the in principle Southern

North Sea SAC Site Integrity Plan

#### 13(4) Written scheme of investigation

in respect of pre-construction archaeological investigations, UXO clearance and pre-commencement material operations in accordance with the details set out in the outline written scheme of investigation (offshore)

Condition 17
Construction Monitoring

17 (4) Construction monitoring must include **traffic monitoring** in accordance with the **outline navigation monitoring strategy** 

18 (2)(d) post-construction traffic monitoring in accordance with the outline navigation monitoring strategy

13 (1)(d)(ii) (bb) Cable laying plan

13(1)(d)(ii) (cc) Cable monitoring plan

13 (1)(d)(ii) (dd) where necessary a relocation plan for a Waverider Buoy and associated Trinity House Class 2 buoy

13 (1)(d)(iii) details of scour protection management and cable protection

13 (1)(e)(i) Marine pollution contingency plan

13 (1)(e)(ii) Chemical risk assessment

13(1)(e)(iii) Waste management and disposal arrangements

13 (1)(e)(v) Fisheries liaison and coexistence plan in accordance with the outline fisheries liaison and coexistence plan

17 (1)(e)(vi) A best practice protocol for minimising disturbance to red-throated diver

Condition 12

**UXO** clearance

Condition 13
Preconstruction plans

and documentation

Condition 18
Post Construction
