To: <EastAngliaOneNorth@planninginspectorate.gov.uk>

Dear Planninginspectorate

My ref 20023093 20023092

This important habitat is situated on the north end of the hedgerow in question and is a haven for the red deer and a pair of buzzards as well as other wildlife I am sure.

It is very deep so unlikely the water hole dries up and the shelter provided is very necessary

Please try to visit this if possible .Regards

Mrs Pat Dorcey
