SPR and National Grid Application

Whom it may concern

We write to express our very strong objection to the above Application especially with regard to the potential significantly increased level of Traffic, including HGV's, to which the Applicant has admitted, along the A1094 Saxmundham Road to and from Aldeburgh and on the B1122 Aldeburgh -Leiston Road

Apart from the economic impact on a seaside town of great natural beauty and internationally renowned cultural significance -the backbone of its tourist based economy - is the *environmental* impact on a residential area ,

Both roads are heavily populated and either side of the A1094/ B1122 Roundabout respectively for 300 yards and 150 yards the roads are in practice *single lane*; and 50/30 yards on the A1094 before the Roundabout the turnings for the Co -Op and the Zebra Crossing for Tesco , In other words we have the prospect of stationary or low gear lorries and vans belching out their fumes and greatly clogging up the town.

To approve the above Application would be an act of *extraordinary environmental vandalism* and is enough reason to block it - quite apart from other considerations such as the impact on tourism.

I suggest before you do anything else you come and see for yourself

Yours faithfully
Jamie and Cary Norman
