Dear planning Inspectorate I am not a learned person familiar with legal proceedings but I and my husband fully back the findings of SEAS and their letter to you and support them and pleased that [REDACTED] has no intention of bring "gagged" .The knowledge that were it not for these learned people Scottish Power Renewables may have been able to continue in this what I glean to be an inappropriate manner is unthinkable.
I trust that the planning Inspectorate will act accordingly.

Yours Truly
Mr and Mrs Dorcey
