This material is intended to apply to both EA1N and EA2.

Dear Examining Authority and team,

Please find attached images to accompany my Deadline 7 Written Representation, Comments on The Applicants' Landfall Hydrogeological Risk Assessment (REP6-021) which I have sent separately.

The photographs are of two potential additional boreholes close to Ness House , which have not been identified on the map (Figure 1) submitted by The Applicants as part of the Landfall Hydrogeological Risk Assessment (REP6-021).

Figures 1-4.

1. Map, Conceptual Geological Profile, showing two potential additional boreholes, marked **A** and **B** in black by me.
2. Photograph of potential additional borehole near Ness House (A).
3. Photograph of potential additional borehole near Ness House (A2) (detail).
4. Photograph of potential additional borehole near Ness House (B2).

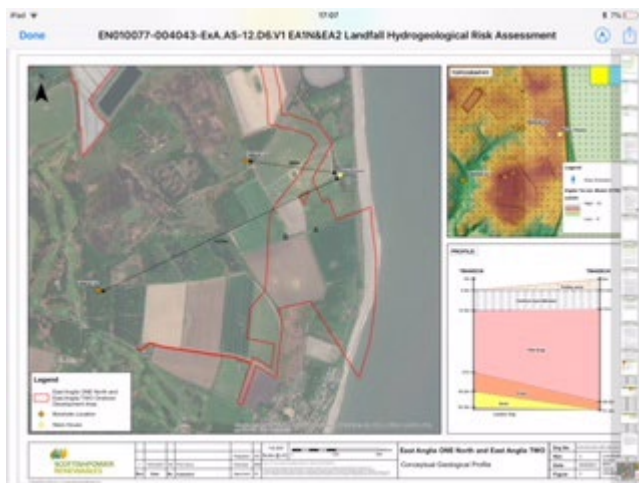

Figure 1.
