## Glossary of Terminology

Applicants	East Anglia TWO Limited / East Anglia ONE North Limited
East Anglia ONE North project	The proposed project consisting of up to 67 wind turbines, up to four offshore electrical platforms, up to one construction, operation and maintenance platform, inter-array cables, platform link cables, up to one operational meteorological mast, up to two offshore export cables, fibre optic cables, landfall infrastructure, onshore cables and ducts, onshore substation, and National Grid infrastructure.
East Anglia TWO project	The proposed project consisting of up to 75 wind turbines, up to four offshore electrical platforms, up to one construction, operation and maintenance platform, inter-array cables, platform link cables, up to one operational meteorological mast, up to two offshore export cables, fibre optic cables, landfall infrastructure, onshore cables and ducts, onshore substation, and National Grid infrastructure.

# 1 Introduction

## 1.1 Project Background

1. East Anglia TWO Limited and East Anglia ONE North Limited ('the Applicants') are seeking Development Consent Orders (DCO) in relation to the East Anglia TWO project and the East Anglia ONE North project ('the Projects'), two offshore wind farms in the southern North Sea.
2. This document is applicable to both the East Anglia ONE North and East Anglia TWO applications, and therefore is endorsed with the yellow and blue icon used to identify materially identical documentation in accordance with the Examining Authority's procedural decisions on document management of 23<sup>rd</sup> December 2019. Whilst for completeness of the record this document has been submitted to both Examinations, if it is read for one project submission there is no need to read it again for the other project.
3. It should be noted that some Statements of Common Ground (SoCG) are relevant to the East Anglia TWO Project or the East Anglia ONE North project only, however these have been included within this joint document for ease of reference. The SoCG which are relevant to the East Anglia TWO Project only are with:
  - East Anglia ONE Limited
4. The SoCG which are relevant to the East Anglia ONE North Project only are with:
  - Interconnector (UK) Limited

## 1.2 Purpose of the Statement of Commonality

5. This document provides the Examining Authority with an overview of the final position of each SoCG between the Applicants and the interested parties in relation to the Projects at Deadline 8 (25<sup>th</sup> March 2021).
6. Throughout the Environmental Impact Assessment (EIA), the Applicants have coordinated an Evidence Plan Process (EPP) which provided a framework for consultation with the relevant stakeholders. Each SoCG reflects discussions which took place throughout the EPP, pre-application consultation as well as the post-application consultation.

### 1.3 Structure

7. This report is structured as follows:
- **Section 1** Introduction to this Statement of Commonality - this includes **Table 1** providing the list of SoCGs that have been prepared by the Applicants and the respective regulative authority in accordance with the list as requested by the Planning Inspectorate in the Rule 6 letters issued on 21 February and 16 July 2020;
  - **Section 2** Summary of commonality of each topic covered – this provides an overview of all topics covered and each stakeholder’s current position; and
  - **Section 3** Tables of commonality – this provides further detail on the aspects of each topic that are covered by the SoCG and each stakeholder’s current position.

### 1.4 Summary of Final Positions

8. The SoCGs submitted to the Examinations, up to and including those at Deadline 8, reflect the final positions of the Applicants and the stakeholders.
9. **Table 1** provides an overview of the final status of each SoCG throughout Examination including those finalised at, and prior to, Deadline 8.

## 3 Tables of Commonality

### 3.1 Structures of SoCGs

12. The SoCGs identify matters on which parties agree and document the position of each party where agreement has not been reached.
13. Where applicable, and to ensure consistency in the approach taken to documenting matters agreed, each SoCG follows a standard format which this Statement of Commonality follows. This will provide clarity to other parties and to the Examining Authority.
14. Each SoCG with EPP Stakeholders generally covers the following topics:
  - Environmental Impact Assessment;
    - Existing Environment;
    - Assessment Methodology;
    - Assessment Conclusions;
  - Habitats Regulations Assessment (HRA) (where applicable);
    - Screening of Likely Significant Effect (LSE);
    - Assessment of Adverse Effect on Integrity (AEoI);
  - Mitigation and Management
    - Mitigation
    - Monitoring.
  - Wording of Requirement(s) and, or Conditions
  - Other Matters as Required
15. Further SoCGs have been prepared with relevant parties based on information in their relevant representations and/or topics raised during consultation.
16. The following sections provide further detail on the status of agreements in relation to the above items for each topic using the following colour code:

	Matter agreed during Examination
	Matter to be discussed further during Examination
	Matter not agreed during Examination
	Topic not relevant to the stakeholder or deferred.
