Subject: objection to extension of examinations
Date: 15 April 2021 19:15:54

My ref id. 20024358
and EA2-OP016

Dear Examining Authority,

I am writing to make an objection to the decision to extend the examinations into the EA1N and EA2 projects by 3 months. I believe this decision to be procedurally unfair and skewed in favour of the applicant, gifting SPR an unfair opportunity to plug the gaps in a flawed application. This decision came out of the blue with no forewarning. Why are SPR being given this unfair opportunity? They should not have submitted their application if they were not ready to proceed.

The Sizewell C enquiry has now commenced; this further disadvantages communities and benefits SPR.

I wonder what has gone on that we, as Interested Parties, have not been told about? If there have been supplementary conversations going on behind the scenes, these need to be disclosed to all parties in the interests of fairness and transparency.

I therefore ask that the decision to extend the examination should be revoked.

Kind regards,
Carol Fagg
