EA1N AND EA2 PROJECTS – OBJECTION TO EXTENSION OF THE EXAMINATIONS

1. This objection is made on behalf of:
- Suffolk Energy Action Solutions (SEAS)
 - Substation Action Save East Suffolk (SASES)
 - Save Our Sandlings (SOS)
 - Aldeburgh Society
 - Friston Parochial Church Council

A formal objection letter of 8 April to the Examination extension.

I completely agree with the objections made by the above groups against this procedurally unfair decision to extend the Examinations by 3 months. It favours SPR EA 1N and SPR EA2. The local groups and individuals have kept to the deadline originally agreed and are at the end of both their resources, finances and time. SPR employ paid experts to present their case and do their research. Local groups and individuals are doing it without in the main, expertise or resources. It is a veritable David and Goliath situation and totally unfair to alter the dates. I would urge you to keep to the original conditions.

Yours sincerely
Christine Laschet
