Mr M Cotter

[REDACTED]  
PINS REF 20023069 & 20023070

[REDACTED]

Thank you for the mail. I came home from work today at 15:30 and by 16:30 three 4x4 had passed my gate. This is a farm track and a public footpath not a motorway. There is no vehicular right of way on this track. Saying that I assume [REDACTED] has give permission to use the track but be mindful this is my home and I have to part pay for the upkeep of the track.

Can you tell me how intrusive the intrusive work is and how long it is going to last? It would have been nice to be given warning a little earlier. How close to my property are you going to be? Have you a works plan/map. Why can't the works vehicles access the run off that was prepared last week south of Fareacres or further round Grove road where there is ample room to access. I can't see that there is a real reason to use the track. None of this should be allowed until when / if DCO is approved. This stress is making life a misery and as we all know is so unnesesary.

Regards Martin Cotter.

Dear Mr Cotter,

Further to our last correspondence, I am writing with reference to the intrusive surveys SPR are currently undertaking across the proposed DCO corridor. As an update, one of the two intrusive survey campaigns will be commencing from 19<sup>th</sup> April on the proposed substation area. Access for machinery will be taken from Grove Road into the proposed substation area for the works to be undertaken. Due to the proximity, I wanted to notify you of the surveys commencing shortly and that if you have any issues or concerns regarding the works on site, please do not hesitate to contact me to discuss further.

In addition, my colleague [REDACTED] will be on site day to day overseeing works, should you wish to contact him his number is [REDACTED].

Kind regards,

[REDACTED]
