EIA: The Councils agree that the **non-intrusive** archaeological surveys undertaken **so far** are appropriate as well as the **proposed scope of further assessment work**, but suggest that further trial trenching, **alongside completion of the earthwork and metal detecting surveys**, is necessary to inform mitigation.

SCC agree with the rest of this statement.

Mitigation: Agreed

DCO: Agreed

Summary: Although there remains an outstanding matter with the Councils and HE relating to the Existing Environment and the extent of pre-application trial trenching, **and other outstanding assessment work**, a resolution has been agreed and this is being delivered by the Applicants.

SCC agree with the rest of this statement.
