## Glossary of Acronyms

BEIS	Department for Business, Energy and Industrial Strategy
DCO	Development Consent Order
ExA	Examining Authority
PD	Procedural Decision
SOS	Save Our Sandlings

## Glossary of Terminology

Applicant	East Anglia TWO Limited / East Anglia ONE North Limited
East Anglia ONE North project	The proposed project consisting of up to 67 wind turbines, up to four offshore electrical platforms, up to one construction, operation and maintenance platform, inter-array cables, platform link cables, up to one operational meteorological mast, up to two offshore export cables, fibre optic cables, landfall infrastructure, onshore cables and ducts, onshore substation, and National Grid infrastructure.
East Anglia ONE North windfarm site	The offshore area within which wind turbines and offshore platforms will be located.
East Anglia TWO project	The proposed project consisting of up to 75 wind turbines, up to four offshore electrical platforms, up to one construction, operation and maintenance platform, inter-array cables, platform link cables, up to one operational meteorological mast, up to two offshore export cables, fibre optic cables, landfall infrastructure, onshore cables and ducts, onshore substation, and National Grid infrastructure.

# 1 Introduction

1. This document presents the Applicants' comments on Save Our Sandlings' Deadline 11 submission (REP11-167).
2. This document is applicable to both the East Anglia TWO and East Anglia ONE North DCO applications, and therefore is endorsed with the yellow and blue icon used to identify materially identical documentation in accordance with the Examining Authority's procedural decisions on document management of 23<sup>rd</sup> December 2019 (PD-004). Whilst this document has been submitted to both Examinations, if it is read for one project submission there is no need to read it for the other project submission.

## 2 Comments on Save Our Sandlings' Deadline 11 Submission

### 2.1 Applicants' Comments on Save Our Sandlings' Deadline 11 Submission (REP11-167)

ID	Save Our Sandlings' Comment	Applicants' Comments
1	Our current focus is on the ongoing archaeological and geological pre-construction survey work being conducted on the applicants' behalf along the landfall, cable route and substation sites. These have not been without incident causing a great deal of concern to the local community and visitors. Following a TEAMS call with the Stakeholder Manager and various members of the survey team we are reaching an understanding and some advance notice of the nature of works involved. We are hopeful these meetings will become a regular feature of these works and will form part of the future communication strategy should these projects be consented.	The Applicants note the comments of Save our Sandlings' (SOS's) and remain committed to keeping the public informed throughout the current survey campaign and beyond.
2	We also note the Secretary of State BEIS has recently deferred a decision on a second offshore windfarm, Norfolk Boreas, until later in the year.	Noted
3	With respect to ISH17 we have reviewed the proposed agenda and the recently published ExQ3 along with responses to deadlines 8, 9 & 10 and do not consider we have anything further to add to the Outline DCO application discussion at this time.	Noted.
