Mr M Cotter

Submission For deadline 12. PINS Ref 20023069 & 20023070.

This is the end of my track on Friday 18/06/2021 08:30, my only way in and out and my legal right of access. This is the fifth time SPR have done this to me. It's not acceptable and they don't care. All they are interested in is bulldozing this project through and shareholders revenue. The way they have treated residents is with contempt, an inconvenience because we live her. They are not a green provider of energy. Their methodologies is beyond contempt. Life at Little Moor Farm has been a living hell over the past few months. This is very sad and depressing. Kind regards Martin Cotter.
