1 Rule 17 Guide to Application

1.1 Introduction

1. This document provides a guide to East Anglia ONE North Limited's (the "Applicant") Development Consent Order (DCO) application for the East Anglia ONE North Offshore Wind Farm (the "Project"). It sets out which document version is the most up to date.
2. This Guide to the Application has been reformatted to address the Rule 17 request issued by the Examining Authority on 23rd June 2021 (PD-053).

1.2 Master Document List

3. The master document list table is set out on the following pages and provides a full list of all the documents submitted to the Examination, indicating either the latest revision (if applicable) or when a new document was submitted.
4. For ease of navigation these documents are grouped by volumes as follows:

Volume Number	Volume Title	Details
1	Application Form	Provides details of the specific application information required by the Planning Inspectorate
2	Plans	Contains the plans which show the location of the Projects and the works proposed
3	Development Consent Order	Outlines the legal powers sought by the Applicant to construct and maintain the Projects
4	Compulsory Acquisition Information	Provides details of the powers of compulsory acquisition that are sought
5	Reports/Statements	Contains documents required to be submitted with the DCO application
6	Environmental Impact Assessment	Contains information showing how the Applicant has assessed the potential impact on the environment

Volume Number	Volume Title	Details
7	Additional information for specific types of infrastructure	Contains specified documents required to be submitted for an application for an offshore windfarm
8	Other Documents	Includes additional documents produced and submitted by the Applicant in support of the application
9	Statements of Common Ground	Joint position statements with key stakeholders to confirm those matters which are agreed and other matters where no agreement has been reached.
10	Post application submissions	Includes documents submitted by the Applicant to the Planning Inspectorate during the course of the Examination that do not fall within the volumes listed above.

5. The table below identifies the files for the documents produced for submission and submitted by the Applicant in respect of the Application. The table identifies the volume, title, submission date and version of the document. The green colour coding in the right-hand column indicates that a document is the most recent version, and the amber colour coding indicates that the document has been superseded by a later version. The final versions of documents are **emboldened** with the relevant revision number and the previous version labelled 'superseded'.
