---

Sir

Sizewell

I strongly object to the desecration of our coastline and the risk to wildlife and human life this poses.

This is a fast eroding coastline so it is lunacy to put a nuclear bomb, effectively, ticking away as the tides charge in.

Bird life does not stand an earthly and the world's best nature reserve, Minsmeare, will be devastated by your actions.

Flood risks, disruption to tourism, drug problems and a gigantic traffic jam will cause Suffolk to barricade itself against a future Tory government.

Don't do it.

Kind Regards

Laura Fagg
