Subject: Scottish Power Renewables proposed substation development at Friston in Suffolk
Date: 04 January 2022 16:05:38

Dear Sir, Madam,

Thank you for the continued updates.

As a resident of Friston I continue to be very concerned by SPR's intentions with our village and the surrounding countryside.

It is like being in a perpetual nightmare. I am hoping that someone will see that this proposal is going to be utterly ruinous for this rural environment if it is allowed to go ahead.

Friston sits in a "bowl" so we do have an issue with flooding in the village. It is obvious to me and many other local residents that a large construction such as this "up the road" will play havoc with the land drainage, ecology and natural habitat, and also our homes!

For Goodness sake please don't allow this to go ahead.

Yours faithfully,

Carolyn Ridgeon
