Post Phase 3.5 - Pre Phase 4	97092	03-12-18	Telephone call	EA1N & EA2 Consultation and interactions	Scheme interest queried why they had received an LIQ and what part of the project would affect them. Explained that there was a proposal to undertake works to the traffic island to facilitate HGV movements to the working area. Scheme interest indicated they would be very unhappy about any proposals that affected their property as they had spent a significant amount of money developing it.

Post Phase 3.5 - Pre Phase 4	97030	07-12-18	Telephone call	EA1N & EA2 Consultation and interactions	Telephoned scheme interest back. They had concerns that the wind farm blades were needing to be taken past their house and if there wasn't enough room would require their house need demolishing. Confirmed this was not the case and it was only to identify property owners alongside an unregistered road that the County Council are yet to confirm. It was due to the possible need to do works to the roundabout to allow construction traffic through.

Post Phase 3.5 - Pre Phase 4	98459	07-01-19	Telephone call	EA1N & EA2 Consultation and interactions	Call re receiving LIQs. Scheme interest called DM to discuss why they had received an LIQ relating to their land. DM confirmed that they had received this correspondence because of proposed bridge strengthening works. There had been confusion in the local area as to why SPR were contacting people and there was some speculation that the land was going to be required for a substation. DM confirmed that SPR's interest in this area was limited solely to bridge strengthening works. Scheme interest queried why they had received three LIQs. DM confirmed that there were separate LIQs for landownership and third party interests. Scheme interest confirmed that they would complete the forms and return them to DM.

Post Phase 3.5 - Pre Phase 4	96913	16-01-19	Telephone call	EA1N & EA2 Consultation and interactions	Scheme interest called DM to enquire why they had been contacted and how their land was required by the project. DM confirmed that the land title just clipped the area of search for highway improvement works. DM indicated that the majority of the title lay outside of the area of search and therefore the likelihood was that this title would be unaffected. Scheme interest queried whether it was road widening or a roundabout proposed. DM confirmed that he did not know at this stage and plans were still being developed.

Dear,

East Anglia TWO and East Anglia ONE North

You may have heard about the East Anglia offshore windfarm projects. ScottishPower Renewables (SPR) is currently constructing East Anglia One off the Suffolk coast and has also recently had confirmation that East Anglia Three has been granted consent.

SPR is now also developing plans for two new offshore windfarms East Anglia ONE North and East Anglia TWO. Each project could have a capacity of up to 800 megawatts (MW).

Whilst the first two projects are connecting in to the onshore electricity transmission network at Bramford near Ipswich, National Grid with SPR are exploring an alternative coastal connection point for East Anglia ONE North and East Anglia TWO. It is anticipated that these projects will connect to the grid in the vicinity of Sizewell/Leiston.

Whilst the projects are at an early stage and it is not yet known precisely where the connection will be made, we have been undertaking some initial research in the area and have identified that you own land in the area. We would therefore welcome the opportunity to meet with you to explain more about the projects and how we might interact with you. If you would be available to meet or would like to discuss the project, please contact me on nrowe@savillsprojects.com.

We are also planning to hold Public Information Days during week commencing 30th October 2017 and you will be very welcome to attend. We will send you an invite nearer the time with the details.

Yours sincerely

Nick Rowe
Wayleave Officer

Dear

SCOTTISH POWER RENEWABLES – EAST ANGLIA

Building on the success of the East Anglia ONE and East Anglia THREE offshore wind projects, Scottish Power Renewables (SPR) is currently developing plans for two new offshore windfarms - East Anglia ONE North and East Anglia TWO (the "Projects"). East Anglia ONE North could have a capacity of up to 800 megawatts and East Anglia TWO could have a capacity of up to 900 megawatts.

SPR proposes to submit separate applications for development consent for East Anglia TWO and East Anglia ONE North in 2019 and 2020 respectively. In advance of submitting those applications detailed Environmental Impact Assessments (EIAs) will be undertaken. The first step in those EIAs is to define the scope of the assessment.

Formal requests for Scoping Opinions in respect of the Projects have been issued to the Secretary of State c/o the Planning Inspectorate. Those requests were supported by Scoping Reports.

The Scoping Reports contain plans identifying the land to which the Projects relate, outline project descriptions and explanations of their likely significant effects on the environment. In addition, the Scoping Reports provide further information on the proposed content of the Environmental Statements that will support the applications that SPR will be making once the impact assessment work is complete.

SPR would like to share the Scoping Reports with you - they are available to view or download from the following weblinks:

- East Anglia ONE North (<https://infrastructure.planninginspectorate.gov.uk/projects/eastern/east-anglia-one-north-offshore-windfarm/?ipcsection=docs>)
- East Anglia Two (<https://infrastructure.planninginspectorate.gov.uk/projects/eastern/east-anglia-two-offshore-windfarm/?ipcsection=docs>)

The Secretary of State is expected to provide his response to the scoping requests before the end of 2017. The Scoping Opinions provided by the Secretary of State will contain his opinion as to the scope, and level of detail, of the information to be provided in the Environmental Statements for the Projects. The Scoping Opinions will inform the scope of the assessment work that SPR will undertake during 2018.

Further discussion and agreement will take place with relevant stakeholders on the detailed assessment methodologies for each of the EIA topics.

The Secretary of State (or the Planning Inspectorate) may contact you directly for your comments on the Scoping Reports and if so please follow the instructions in that correspondence to return your comments.

Otherwise, should you have any comments on the Scoping Reports, please send these to:

Kimberley Lumbis Tel: 07966 186449

Or email responses to:

eastangliatwo@scottishpower.com

eastangliaonenorth@scottishpower.com

Any responses to the scoping reports should be provided to the email addresses above by **22.12.2017**.

SCOTTISHPOWER RENEWABLES – EAST ANGLIA ONE NORTH AND EAST ANGLIA TWO

We are writing to you on behalf of ScottishPower Renewables (SPR) regarding East Anglia ONE North and East Anglia TWO projects. Savills have been appointed as land agents to support SPR on these projects and will be the first point of contact for individuals or companies with an interest in land or property in the area. As you may be aware SPR develops and owns offshore windfarms globally and is taking forward the development, construction and operation of four offshore windfarm projects off the coast of East Anglia.

These four projects are:

- East Anglia ONE, which will make landfall at Bawdsey and connect to its substation location in Bramford, Ipswich. East Anglia ONE is currently under construction.
- East Anglia THREE, which will follow the East Anglia ONE cable route connecting from Bawdsey to its substation location in Bramford. East Anglia THREE recently received development consent.
- East Anglia ONE North and East Anglia TWO which are both in the early stages of development. Both projects combined will have the capability to power up to 1.3 million homes per year. It is about these two projects particularly that we are keen to consult with you at this stage.

With this in mind, the projects held some informal Public Information Days in late October/early November 2017. The next round of Public Information Days are planned for March 2018 and details are provided below:

Area	Venue	Date	Time
Lowestoft	Victoria Hotel	17 March 2018	10am – 1pm
Southwold	TBC	17 March 2018	3pm – 6pm
Leiston	United Church	18 March 2018	10am – 1pm
Thorpeness	Thorpeness Country Club	24 March 2018	10am – 1pm
Aldeburgh	TBC	24 March 2018	3pm – 6pm
Orford	Town Hall	25 March 2018	10am – 1pm

We would encourage you to attend these Public Information Days. There will be representatives from SPR and they will provide current information regarding the projects.

Offices and associates throughout the Americas, Europe, Asia Pacific, Africa and the Middle East.

Savills (UK) Limited, Chartered Surveyors. A subsidiary of Savills plc. Registered in England No. 2605138.
Registered office: 33 Margaret Street, London, W1G 0JD

We also recently wrote to you, to inform you that the East Anglia ONE North and East Anglia TWO projects have submitted a scoping report to the Secretary of State. This scoping report effectively sets out what the projects plan to do between now and submitting a full development consent application in 2019 for East Anglia TWO and 2020 for East Anglia One North. The Secretary of State and other stakeholders review this document and provide feedback as to whether they agree with the proposed approach or consider that additional steps or work is required.

The projects also wish to consult with local residents and landowners such as yourselves at this stage to give you the chance to provide feedback or ask any questions you may have. There will also be further informal and formal consultation prior to the applications being submitted. At this stage there are no set deadlines for consultation or responses from local residents or landowners.

Since the East Anglia ONE North and East Anglia TWO projects are at an early stage of development, it is not yet known precisely where the onshore connection to the National Grid will be made. Furthermore, the cable route and locations for the substations which will be required for these particular projects have not yet been defined. It is, however, anticipated that these projects will connect to the grid in the vicinity of Sizewell or Leiston.

SPR has been undertaking some initial research in the area which has indicated that you may own land or property in our wide search area. Please note that, although land or property which you may own has been identified within our search area, this does not mean you will be directly affected by the projects. However, it does mean that we are interested to hear any feedback or answer questions you might have.

Over the next year SPR will look to reduce the search area to form a proposed route for the cable route and substation locations. Local residents and individuals with an interest in land and property will continue to be consulted with. The projects will look to avoid residential areas and houses.

The project will also undertake some initial site surveys to identify potentially sensitive species and habitats and generally to understand the area better. These will help with the design of the projects and to identify ways of minimising the impact. Access will not be required everywhere but should the projects think that it would be beneficial to undertake surveys on property owned by you, we will contact you to ask whether you would be willing to agree to this.

Should you have any queries or comments that you would like to discuss prior to the Public Information Days in March, please do not hesitate to contact me at eastanglia@savillsprojects.com or by ringing 0845 149 1415. You can also find further information about the two projects on the following links that I hope you find helpful;

Dear

**ScottishPower Renewables
East Anglia ONE North and East Anglia TWO Offshore Windfarm Projects**

As agents representing ScottishPower Renewables (SPR), I am writing to you as I believe that you own land within SPR's 'Onshore Search Area'. This is the area in which SPR is currently investigating potential route options for underground electricity cables associated with two of their offshore wind farm projects known as East Anglia ONE North and East Anglia TWO.

Both East Anglia ONE North and East Anglia TWO projects are likely to connect to the National Grid in the vicinity of Sizewell and Leiston. Consequently, a study area has been identified for detailed investigation with the aim of ultimately choosing a cable route.

SPR has undertaken initial desktop research of the study area, including an assessment of land ownerships using data from HM Land Registry. It has been identified that you hold an interest in the land shown shaded pink on the enclosed plan, and so I would therefore like to confirm your details to ensure you are consulted about the projects as they progress.

Please note that, although land or property which you may own has been identified within our search area, this does not mean you will be directly affected by the projects. However, we are interested to hear any feedback, answer questions and keep you up to date with the project as it develops. Therefore, I would be grateful if you would complete the enclosed Land Interest Questionnaire and return it in the prepaid envelope.

The early stages of the project will involve undertaking environmental surveys to identify potentially sensitive species and habitats and generally to understand the area better. These surveys will support the design of the projects and are in progress at the moment on land in the surrounding area. As your property falls within the study area, we would like to discuss with you the possibility of arranging access to your land. As the survey season is now underway, I would be grateful if you could contact me at your earliest convenience to discuss access. I am likely to be in the area week commencing 4th June and would be happy to meet with you to discuss the project and the environmental surveys in more detail should you have any queries.

I will be happy to answer any queries you may have but if you wish to find any general information about the two projects, this can be found using the following links;

- https://www.scottishpowerrenewables.com/pages/east_anglia_one_north.aspx
- https://www.scottishpowerrenewables.com/pages/east_anglia_two.aspx

In addition to the information available online through the links above, there will also be an opportunity to discuss the projects with members of the project team at the forthcoming Public Information Days. These events are being held in local venues throughout June and July and I have enclosed a schedule of these events for your information. Further details of these events can again be found using the website links above.

Yours sincerely,

Rob Lees MRICS

**ScottishPower Renewables
East Anglia ONE North and East Anglia TWO Offshore Windfarm Projects**

ScottishPower Renewables (SPR) is part of Iberdrola, one of the world's largest utility companies and the leading wind energy producer. SPR is responsible for progressing offshore windfarms throughout the world and onshore wind and marine energy projects in the UK.

SPR is currently promoting (via its project companies) the development of two new offshore windfarm projects, East Anglia ONE North and East Anglia TWO. Both projects are proposed to be located off the Suffolk coast with grid connections being located in the area of Sizewell or Friston. The two projects are anticipated to have a combined capacity of 1700MW which is enough output to potentially power 1.4 million homes. For further information about the East Anglia ONE North and East Anglia Two projects, please visit;

- www.scottishpowerrenewables.com/pages/east_anglia_projects.aspx.

It is important to stress that the development proposals are presently in draft form, and this part of the process is just to ensure that all parties with an interest in land and/or property that may be affected by the projects continue to receive notification of the project submissions and stages of further consultation. For this reason, it is essential that SPR have all the relevant land ownership information.

We believe that you may have an interest in land and/or property which may be required for, or affected by, the proposed projects.

We wish to confirm that we have correctly identified you as holding an interest in this land and to ask you to identify anybody else you know who may also have an interest in the land. The purpose of seeking this information is to enable us to keep you (and other relevant parties) informed of any matters surrounding our projects.

Your details have been obtained from publicly available sources such as the Land Registry and the electoral register and from information you may have previously provided to one of the projects' land agents, formerly Savills and latterly Dalcour Maclaren. Moving forward, Dalcour Maclaren will be responsible for the collation and verification of any information you provide.

Enclosed with this letter is a Land Interest Questionnaire(s) (LIQ) and plan(s). The LIQ is provided so that you can confirm the information we have is correct, identify any changes to your land ownership/interests and advise us of any interests that others may hold in or over the land.

Please review and complete the questionnaire by answering the questions, providing updates to any inaccuracies in pre-populated sections and providing details of any other parties who may have other interests in the land. Please then sign the form and return it to us. We will then contact any other parties you have identified as potential holders of an interest in the land.

The plan(s) attached to the questionnaire shows the extent of land that we believe you have an interest in. Please also sign and return the plan to confirm that the boundary is correct. If the boundary is not correct, please mark on the plan(s) the required amendments and send them back to us.

Please complete and return the questionnaire(s) and plan(s) to Dalcour Maclaren, who are working on our behalf, by 11th December 2018.

You can return the questionnaire in a couple of ways:

- Scan the questionnaire and email it to eaonenorthandtwo@dalcourmaclaren.com
- Return the questionnaire in the post using the enclosed pre-paid envelope, or send it to:

Referencing Team, Dalcour Maclaren, 1 Staplehurst Farm,
Weston on the Green, Oxfordshire, OX25 3QU

If you require assistance completing this form, please contact Dalcour Maclaren on 0800 3317190 or by email eaonenorthandtwo@dalcourmaclaren.com.

**ScottishPower Renewables
East Anglia ONE North and East Anglia TWO Offshore Windfarm Projects**

You will have recently received correspondence from me with reference to an interest or interests that you hold in land that may be required for, or affected by, Scottish Power Renewables' East Anglia ONE North and East Anglia TWO Offshore Windfarm Projects ("the projects"). SPR posted out Land Interest Questionnaires to all parties with interests in land identified in proximity to the projects.

The projects will apply for consent under the Planning Act 2008. Under this legislation, we have a duty to attempt to identify and consult with anyone who may have an interest in land potentially affected by the projects.

To facilitate this, we must make diligent enquiry to identify such owners, lessees, tenants as well as those third parties with rights over the land. This will give us the opportunity to consult with relevant parties, seek feedback on the proposals, and incorporate any relevant feedback individuals may have.

The data used to identify relevant persons to date includes, HM Land Registry, data collected on site and site notices. The Land Registry data is not regularly updated and may be incomplete, therefore the Land Information Questionnaire (LIQ) exercise is designed to update or correct this information.

Further to our first round of correspondence, our records indicate that we are yet to receive a response from you regarding this communication. There is no legal obligation for you to provide the information requested on the Land Interest Questionnaires contained in the original correspondence, however it would be beneficial to both the projects and any interested parties for us to have the most accurate information available, we would therefore appreciate any feedback you may be able to provide.

I would be grateful if you could complete and return the questionnaire(s) and plan(s) to Dalcour Maclaren using the details shown below. If you have responded to our appointed agents, Dalcour Maclaren, in the last couple of days please ignore this letter.

Responses can be sent using the following methods:

- Scan the questionnaire and email it to eaonenorthandtwo@dalcourmaclaren.com
- Post using the previously enclosed pre-paid envelope, or send it to:

Referencing Team, Dalcour Maclaren, 1 Staplehurst Farm, Weston on the Green, Oxfordshire, OX25 3QU.

If you require assistance completing this form, please contact Dalcour Maclaren on 0800 3317190 or by email eaonenorthandtwo@dalcourmaclaren.com.

EAST ANGLIA TWO OFFSHORE WIND FARM

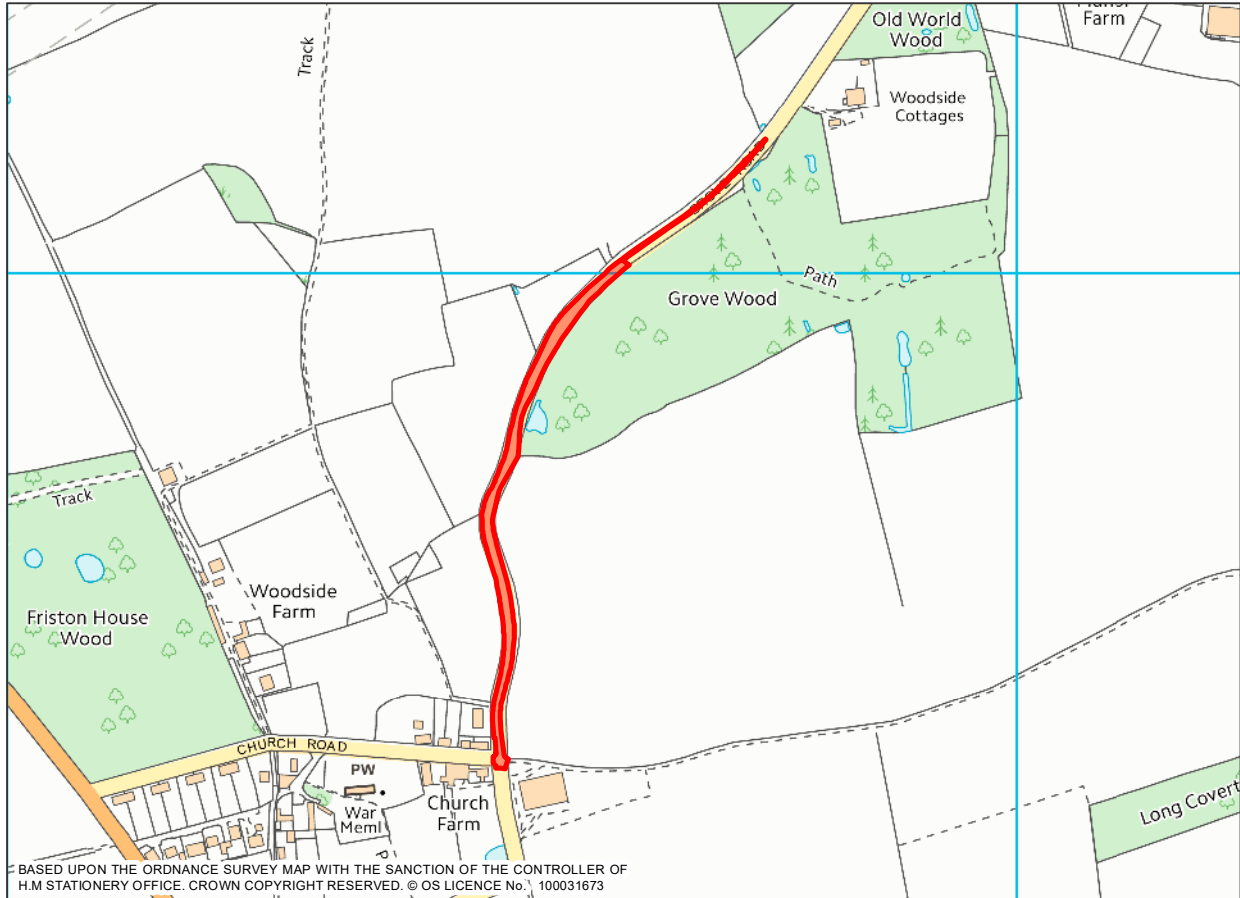

Important notice for persons with an interest in this land

To: The unknown owners, lessees, tenants or occupiers of this land and the subsoil of this land shown shaded red on the plan below and anyone with an interest in it, or with the power to sell, convey or release it or people who could have a claim for compensation as a result of the below noted project going ahead.

East Anglia TWO Limited, of 3rd Floor, 1 Tudor Street, London EC4Y 0AH (hereinafter referred to as "the Applicant") intends to apply to the Secretary of State for a Development Consent Order ("DCO") under Section 37 of the Planning Act 2008 for inter alia the construction, operation, maintenance and decommissioning of an offshore wind farm generating station, with a generating capacity of up to 900 megawatts, and associated development which includes underground cables from landfall to a new onshore substation and other new transmission infrastructure to connect the wind farm to the national grid ("East Anglia TWO").

The development of East Anglia TWO may affect the land identified in this notice. The Applicant has been unable to identify all rights in and ownership of the land and sub soil of the land shown shaded red on the plan below. The Applicant is seeking to identify people who may have an interest in this land, including owners, tenants, lessees or occupiers of the land or persons with the power to sell, convey or release the land, or people who could have a claim for compensation as a result of East Anglia TWO going ahead.

If you believe you have a relevant interest, then we should be grateful if you would contact Dalcour Maclaren who are working on the Applicant's behalf and quote reference: Unregistered532. Dalcour Maclaren can be contacted using the following details; Tel: 0800 3317190. Email: eaonenorthandtwo@dalcourmaclaren.com. Dear <<Salutation>>

**East Anglia TWO Offshore Windfarm
Statutory Pre-Application Consultation under Section 42 of the Planning Act 2008 (Phase 4
Consultation Round)**

We are writing to consult with you on the proposed application for the East Anglia TWO Offshore Windfarm.

East Anglia TWO Limited (which is a wholly owned subsidiary of ScottishPower Renewables (UK) Limited) intends to apply to the Secretary of State for Business, Energy and Industrial Strategy for a Development Consent Order ("DCO") under Section 37 of the Planning Act 2008 for the construction and operation of the East Anglia TWO Offshore Windfarm. It is expected that the DCO application for the proposed East Anglia TWO project will be submitted in Q4 2019.

Prior to submitting the DCO application East Anglia TWO Limited is required by Section 42 of the Planning Act 2008 and the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017 to carry out statutory consultation on the proposed application, including the preliminary environmental information and you have been identified as a consultee for the purposes of this consultation.

East Anglia TWO Limited will consider any relevant responses received when preparing the final DCO application.

Background to the proposed East Anglia TWO project

The East Anglia TWO windfarm site is located approximately 31km from Lowestoft and 32km from Southwold and covers an area of approximately 255km². The East Anglia TWO windfarm site will contain up to 75 wind turbines, offshore platforms and other offshore electrical infrastructure. Offshore electrical infrastructure will export electricity generated by the wind turbines via export cables to landfall located north of Thorpeness in Suffolk.

At landfall, the offshore export cables will be connected to the onshore infrastructure. Onshore cables will be routed underground to an onshore substation which will in turn connect into the main transmission network via new transmission infrastructure to be owned and operated by National Grid. The onshore substation and the National Grid infrastructure will be located at Grove Wood, Friston.

Further information including a Project Description for the proposed East Anglia TWO project can be found in the enclosed documentation (see below).

Documents enclosed with this Letter

We enclose with this letter for your consultation:

1. A USB containing a copy of the Preliminary Environmental Information Report, Non-Technical Summary and draft Report to Inform the Appropriate Assessment.
2. A hard copy of the notice published under Section 48 of the Planning Act 2008.

These documents can also be viewed on the project website at https://www.scottishpowerrenewables.com/pages/east_anglia_two.aspx.

Responding to this consultation

Any consultation responses should be made in writing to:

ScottishPower Renewables East Anglia TWO
RTLY-RLGH-GKSE FREEPOST, 25 Priestgate, Peterborough, PE1 1JL

Or via email: eastanglialand@scottishpower.com

The consultation will end at midnight on **26th March 2019**.

Please ensure that all comments are submitted to East Anglia TWO Limited before the consultation end date.

Consultation responses may be made publicly available however SPR will not share individuals' data (although SPR may indicate the general area of an individual's location for context).

The proposed East Anglia ONE North project

The proposed East Anglia ONE North project is being developed in parallel with the proposed East Anglia TWO project. Separate DCO applications will be submitted for the projects and pre-application consultation is also being carried out separately.

You will receive separate correspondence consulting you on the East Anglia ONE North project. When responding to the consultations please make clear if your response is made in respect of the proposed East Anglia TWO project, the proposed East Anglia ONE North project, or both projects.

We look forward to hearing from you.

Yours faithfully

East Anglia TWO Limited

SECTION 48, PLANNING ACT 2008
REGULATION 4, THE INFRASTRUCTURE PLANNING (APPLICATIONS: PRESCRIBED
FORMS AND PROCEDURE) REGULATIONS 2009
NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT
ORDER TO CONSTRUCT AND OPERATE EAST ANGLIA TWO OFFSHORE WINDFARM

Notice is hereby given that East Anglia TWO Limited of 3rd Floor 1 Tudor Street, London, EC4Y 0AH ("the Applicant") intends to apply to the Secretary of State for a Development Consent Order ("DCO") under section 37 of the Planning Act 2008 for the construction and operation of the East Anglia TWO Offshore Windfarm, an offshore wind generating station, located approximately 31km from Lowestoft and 32km from Southwold and covering an area of approximately 255km², together with associated development to connect the generating station to the national grid.

The proposed DCO would, amongst other things, authorise:

- Up to 75 offshore wind turbines and their foundations with a maximum hub height of 175m above lowest astronomical tide (LAT), maximum rotor diameter of 250m and maximum tip height of up to 300m above LAT;
- Up to four High Voltage Alternating Current (HVAC) offshore electrical platforms and their foundations to aggregate the power from the wind turbines and convert it into a suitable form for export to shore;
- Up to one offshore construction, operation and maintenance platform and its foundations;
- Up to one offshore meteorological mast and its foundations;
- Subsea cables connecting the wind turbines, the meteorological mast and offshore platforms;
- Up to two offshore subsea export cables to bring electricity from the offshore electrical platforms to landfall located north of Thorpeness in Suffolk;
- Works at landfall to connect the offshore export cables to the onshore cables including transition bays;
- Up to six underground cables and up to two fibre optic cables, of approximately 9km in length, with jointing pits, commencing at the landfall and running in a northern direction towards Sizewell Gap, turning to a south westerly direction towards the B1122 (south of Aldringham), turning to a westerly direction towards Grove Road, and turning north to the onshore substation;
- A new onshore substation in the vicinity of Grove Wood, Friston and a connection into the National Grid infrastructure;
- National Grid infrastructure in the vicinity of Grove Wood, Friston to facilitate a connection into the main transmission network including a new National Grid substation and National Grid overhead line realignment works;
- Associated or ancillary works including improvements to highways, verges and private access roads, construction compounds, construction of a temporary haul road, landscaping and drainage works;
- If required, the permanent and/or temporary compulsory acquisition of land and/or rights and overriding of easements and other rights over or affecting land;
- If required, the temporary stopping up, alternation or diversion of streets;
- The application and/or disapplication of legislation including inter alia legislation relating to compulsory purchase; and
- Such ancillary, incidental and consequential provisions, permits or consents as are necessary and/or convenient.

The proposed works are an environmental impact assessment ("EIA") development for the purposes of The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. This means that the proposed works constitute development for which an Environmental Impact Assessment is required and the proposed application for a DCO will be accompanied by an Environmental Statement.

The Applicant has prepared Preliminary Environmental Information which contains documents, plans and maps showing the nature and location of the East Anglia TWO Offshore Windfarm and which can be inspected free of charge from 11th February 2019 until 26th March 2019 at the locations and times set out below:

Dear ,

**ScottishPower Renewables – East Anglia One North and Two
Project Interactions and Protective Provisions**

You will recently have received correspondence from ScottishPower Renewables (SPR) regarding the s.42 formal consultation that is currently ongoing with regards to East Anglia One North and East Anglia Two (EA1N and EA2). The consultation period closes on 26th March 2019 and any feedback you have on the proposals would be gratefully received.

Looking ahead to the future, while SPR will be looking to refine its plans following the completion of this phase of consultation, Dalcour Maclaren (as agents working on behalf of SPR) have been instructed to contact you now in order to provide an overview of the potential interactions the project may have with existing apparatus. Based on information gathered from a number of sources, the enclosed plan(s) shows the apparatus that SPR believe may be impacted by one or more elements of the Projects. As previously mentioned, the exact location of apparatus will be subject to further refinement and micro-siting and therefore these interactions remain indicative at this stage. However, hopefully the plan serves to provide a suitable overview of the level of interaction that the Projects may have with your apparatus.

As you may be aware, SPR are currently constructing their East Anglia One (EA One) and Three projects, the onshore element of which runs between Bawdsey and Bramford. It is therefore likely that you may already be liaising with SPR and have made the necessary arrangements for any interactions that may be occurring on EA One and Three. In light of this, SPR have proposed protective provisions matching those used on EA One and Three. I have enclosed a copy of these provisions for your reference.

I appreciate that there may be specific requirements that fall outside of these provisions and therefore a specific crossing agreement may be required in due course. However, in the first instance I would be grateful if you could review the enclosed and provide an indication as to whether the provisions provide sufficient protection for your assets. Similarly, if you believe that any of your apparatus is missing from the enclosed plan, please let me know.

If you require any further information, please do not hesitate to contact me using the details shown above.

Yours sincerely,

Robert Lees MRICS
