DISCLAIMER: This Checklist is for information only and is not a formal application document. It is a non-statutory checklist for the Planning Inspectorate to complete. Completion or self-assessment by the Applicant does not hold weight at the Acceptance stage. Unless specified, **all references to the Planning Inspectorate are made in relation to functions being carried out on behalf of the Secretary of State for Housing, Communities and Local Government.**

Section 55(2) Acceptance of Applications				
1	Within 28 days (starting day after receipt) the Planning Inspectorate must decide whether or not to accept the application for Examination.	Date received	28 day due date	Date of decision
		25 October 2019	22 November 2019	22 November 2019
Section 55(3) – the Planning Inspectorate may only accept an application if it concludes that:			Planning Inspectorate comments	
Section 55(3)(a) and s55(3)(c): It is an application for an order granting development consent				
2	Is the development a Nationally Significant Infrastructure Project ¹ (NSIP) (or does it form part of an NSIP); and does the application state on the face of it that it is an application for a Development Consent Order ² (DCO) under the Planning Act 2008 (the PA2008), or equivalent words? Does the application specify the development to which it relates (i.e. which category or categories in ss14 to 30 does the Proposed Development fall)?	<p>Yes</p> <p>The Proposed Development set out in Schedule 1 of the Draft DCO including deemed marine licences (Doc 3.1) includes development falling within the categories in s14 of the PA2008. The development is for the construction of an offshore generating station and satisfies s15 of the PA2008; including sections 15(3)(a), and 15(3)(b).</p> <p>This is consistent with the summary provided in section 4 of the Application Form (Doc 1.2) which states that the application is for an NSIP.</p>		

¹ NSIP is defined generally in s14 with the detailed thresholds for each of the specified categories being set out in ss15 to 30

² Development consent is required for development to the extent that the development is or forms part of an NSIP (s31 of the PA2008)

	If the development does not fall within the categories in ss14 to 30, has a direction been given by the Secretary of State under s35 of the PA2008 for the development to be treated as development for which development consent is required?	The application form, together with the wider application document set, also states that the proposed development includes the installation of an electric line above ground, pursuant to s14(1)(b) and s16 of the PA2008.
3	Summary: Section 55(3)(a) and s55(3)(c)	The Planning Inspectorate is satisfied that the Draft DCO (Doc 3.1) includes development for which development consent is required.
Section 55(3)(e): The Applicant in relation to the application made has complied with Chapter 2 of Part 5 (pre-application procedure)		
4	In accordance with the EIA Regulations ³ , did the Applicant (prior to carrying out consultation in accordance with s42) either (a) request the Planning Inspectorate adopt a Screening Opinion in respect of the development to which the application relates, or (b) notify the Planning Inspectorate in writing that it proposed to provide an Environmental Statement in respect of that development?	<p>Yes</p> <p>On 9 November 2017 the Applicant notified the Planning Inspectorate in accordance with Regulation 8(1)(b) of The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017 of its intention to provide an Environmental Statement (ES) in respect of the Proposed Development. The notification was received before the start of statutory consultation on 11 February 2019.</p> <p>A copy of the notification letter is provided at Appendix 4 of the Consultation Report (Doc 5.1.4).</p>
5	Have any Adequacy of Consultation Representations ⁴ been received from 'A', 'B', 'C' and 'D' local authorities; and if so, do they confirm that the Applicant has complied with the duties under s42, s47 and s48?	<p>Yes</p> <p>There are 11 host and neighbouring authorities, of which 9 responded to the Planning Inspectorate's invitation to make an Adequacy of Consultation Representation (AoCR).</p> <p>All 9 responding authorities confirmed in their AoCR that either the Applicant had complied with its duties under s42, s47 and s48 of the PA2008 or that their authority had no comments/ objections to make. These local authorities were:</p> <ul style="list-style-type: none"> • South Norfolk Council ('A' authority)

³ Regulation 8 of The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017 (2017 EIA Regulations), or where Regulation 37 of the 2017 EIA Regulations applies, Regulation 6 of The Infrastructure Planning (Environmental Impact Assessment) Regulations 2009 (2009 EIA Regulations)

⁴ Section 55(4) of the PA2008 provides that the Planning Inspectorate must have regard to the Consultation Report, and any Adequacy of Consultation Representations received

Suffolk County Council and East Suffolk Council in their joint response annexed the SASES correspondence to their AoCR.</p> <p>The SASES representation included concerns about the timing and content of consultation processes, with particular reference to the selection of a grid connection location at Friston. However, it is apparent that the Applicant has publicised the proposals sufficiently to receive these comments. The Consultation Report (Doc 5.1) explains how, at a project wide level, the Applicant has had regard to consultation responses. Consequently, the Planning Inspectorate, on behalf of the Secretary of State, considers that this should not prevent the project from proceeding to Examination.</p> <p>Whilst the issues raised by these submissions are of potential relevance to an Examination, it will be open to the parties concerned to make representations on them which the Examining Authority can then take into account. All parties will have the opportunity to make representations on these and other matters during the course of the Examination.</p> <p>All AoCRs received have been carefully considered and are available to view on the National Infrastructure Planning website: https://infrastructure.planninginspectorate.gov.uk/projects/eastern/east-anglia-two-offshore-windfarm/</p>

	Book of Reference (Doc 4.3) <ul style="list-style-type: none"> The Book of Reference (Doc 4.3) does not cross-refer to the relevant articles contained in the development consent order in accordance with Annex D Paragraph 10 of Planning Act 2008 Guidance related to procedures for the compulsory acquisition of land. An introduction to the document may aid the reader, whilst this is not required to comply with the legislation or Guidance, it has been included in some recent applications. Land Plan (Doc 2.2)				

- APFP Reg 5(2)(i)(1) There is a Land Plan (Onshore) but a Land Plan (Offshore) has not been provided. A Crown Land Plan (Offshore) has been provided (**Doc 2.9**). The absence of a Land Plan (Offshore) does not indicate against acceptance on the basis that equivalent accepted applications for offshore development have also lacked this plan at the point of submission.
- A separate key plan has not been submitted under APFP Reg 5(4). The **Land Plan (Doc 2.2)** comprises 13 sheets. Sheet 1 is labelled as Land Plans sheet 1 of 13. This appears to be a Key Plan (though not labelled as such) which shows the relationship between the different sheets. It also shows Sheet 2 and Sheet 3 which are sectional type key plans. The individual Land Plan sheets run from Sheet 4 – 13. The Land Plan set does not utilise the same map base as the other submitted plans and the sheet layout is different.
- Not all of the names used to describe the location of land in the Book of Reference are noted on the Land Plan, ie Sizewell Estate, Sizewell Gap, Grimsey's Lane, Blackheath Estate, Redhouse Farm and Knodishall Hall.
- Road names are an important aid to the identification of land and should be larger and clearer.
- The description of Plot 65 in the Book of Reference is 'west of Fitches Lane'. Plot 65 appears on the plan to be southeast of Fitches Lane. The same issue is noted for Plot 66.
- The description of Plot 133 in the Book of Reference is 'Manor Farm'. Should this be 'Little Moor Farm'?
- Plots 18, 91 and 126 would benefit from being shown on an inset plan.
- Inset plans would benefit from the addition of names to identify their locations.
- Inset 9.4 identifies that it shows plots 136, 138, 142 and 143. Inset 9.4 should identify that it shows Plot 137 (not Plot 136).

Works Plan (Onshore) (Doc 2.3.2)

- The **Works Plan (Onshore) (Doc 2.3.2)** applies tones to a base map to identify the locations of works. The tones are insufficiently translucent to enable underlying features to be fully discerned, which makes the precise location of works harder than it should be to ascertain from the plans.
