

EN010078 East Anglia TWO Offshore Windfarm Examination Library

Updated – 18 September 2020

This Examination Library relates to the East Anglia TWO Offshore Windfarm application. The library lists each document that has been submitted to the examination by any party and documents that have been issued by the Planning Inspectorate. All documents listed have been published to the National Infrastructure's Planning website and a hyperlink is provided for each document. A unique reference is given to each document; these references will be used within the Report on the Implications for European Sites and will be used in the Examining Authority's Recommendation Report. The documents within the library are categorised either by document type or by the deadline to which they are submitted.

Please note the following:

- This is a working document and will be updated periodically as the examination progresses.
- Advice under Section 51 of the Planning Act 2008 that has been issued by the Inspectorate, is published to the National Infrastructure Website but is not included within the Examination Library as such advice is not an examination document.
- This document contains references to documents from the point the application was submitted.
- The order of documents within each sub-section is either chronological, numerical, or alphabetical and confers no priority or higher status on those that have been listed first.

East Anglia ONE North and East Anglia TWO Examination Libraries: records of similarity and difference

Although the offshore development proposed in these two Applications is different, the onshore development is similar. The Examination Libraries for both are being developed in tandem. Equivalent reference numbers have been and will be given to documents that have equivalent functions.

If a document is described in either Examination Library as 'not used', this relates to circumstances where a document has been prepared to support the other Application, and there is no equivalent document that has been prepared for this Application.

EN010078 – East Anglia TWO Offshore Windfarm**Examination Library - Index**

Category	Reference
Application Documents As submitted and amended version received before the PM. Any amended version received during the Examination stage to be saved under the Deadline received	APP-xxx
Adequacy of Consultation responses	AoC-xxx
Relevant Representations	RR-xxx
Procedural Decisions and Notifications from the Examining Authority Includes Examining Authority's questions, s55, and post acceptance s51	PD-xxx
Additional Submissions Includes anything accepted at the Preliminary Meeting and correspondence that is either relevant to a procedural decision or contains factual information pertaining to the examination including responses to Rule 6 and Rule 8 letters	AS-xxx
Events and Hearings Includes agendas for hearings and site inspections, audio recordings, responses to notifications and applicant's hearing notices	EV-xxx
Representations – by Deadline	
Deadline 1: <i>State what type of submissions was requested for this deadline in the heading</i> Includes R17 responses	REP1-xxx

Deadline 2: <i>State what type of submissions was requested for this deadline in the heading</i> Includes R17 responses	REP2-xxx
Other Documents Includes s127/131/138 information, s56, s58 and s59 certificates, and transboundary documents	OD-xxx
