Dear Inspectors,

I would like to record my dismay and disbelief at the National Grid's response to the Examining Authority's written questions in which they have made it clear that they do not intend to show up at the Issue Specific Hearing 1 and 2. I am afraid it is this kind of behaviour that is making many of us feel that we no longer live in a democratic society where companies can be held to account for their actions. It is obvious that National Grid are trying to slip in their development plans under the radar of the SPR application. Despite the name National Grid does not appear to work in that National interest. We would ask that the Planning Inspectors enlist the help of the Secretary of State to insist that National Grid attend the hearings and answer the questions raised, in particular questions 1.0.16 and 1.0.17 with reference to all six additional energy projects that are proposed.

Thank you for all your hard work examining these proposals.

Yours faithfully

Louise Fincham
