Subject: Request to speak at Compulsory Aquisition Hearing
Date: 13 December 2020 16:06:33

East Anglia One North – unique ref: EA1N-AFP128

East Anglia Two – unique ref: EA2-AFP130

I wish to make representations to the Planning Inspectorate in respect of both EA1N and EA2.

I am an Interested party, although, having received documentation on 8th December, I believe I am an Affected Party.

My ‘concern’ is with Works No 33, Map REP1-037.

The boundary of my property is directly affected by the Applicant’s proposals to request additional land. It would seem that Scottish Power Renewables’ latest plans will affect the whole of the Northern boundary of my property. This includes the only vehicular off-road access to my property. It also appears to suggest that vehicular access to the whole of Church Path – which is a no through vehicular access road, may be compromised as it is the only means of vehicular access to the medieval Grade 2* Listed Church, the Village Hall and seven private residences, one of which requires disabled access. It is also the only access for Emergency Services, Refuse Collectors, Post and newspaper deliveries, trades persons etc.

I wish to speak in person, or reserve the right to have a spokesperson speak on my behalf at the Compulsory Aquisition Hearings.

At this juncture I wish to state the difficulty that I have had trying to navigate the countless cross references to documents which are poorly and inadequately marked, when trying to learn the extent of the land required and the exact purposes for which it may be required.

I have written to the Applicant (SPR) requesting an on-site visit (23/10/20) so that I can better understand the nature of their interest, but to date I have not had a reply from them on this matter.

Mike Lewis
