

The Planning Act 2008

East Anglia One North (EA1N) and East Anglia Two (EA2) Offshore Wind Farms

Planning Inspectorate Reference: EA1N – EN010077, EA2 – EN010078

Deadline 4 – 13 January 2021

Comments of Suffolk County Council as Public Health Authority

1. Comments on the Applicant's revised draft Development Consent Order

1.1 Not applicable.

2. Comments on any revised/updated Statement of Common Ground (if any)

2.1 In Section LA-11.21 of the SoCG there doesn't seem to be an acknowledgement of the need for iterative dialogue with the local community around the perceived risks from the site – so from a Public Health perspective there are concerns around that aspect.

2.2 In relation to the comments in section LA-11.20 on cumulative effects, SCC considers that human health has the potential to be affected by the cumulative effects of other infrastructure projects, and SCC has made separate submissions in relation to the need for further cumulative impact assessment to be undertaken in relation to the substations. Pending resolution of that issue, SCC defers any further comment.

3. Comments on any additional information/submissions received by Deadline 3

4.1 Not applicable.

4. Responses to any further information requested by the Examining Authority for this deadline

4.1 Not applicable.
