Issue Specific Hearing 4: Onshore Environment, Construction, Transport and Operational Effects

Thank you for inviting us to attend Issue Specific Hearing 4 in relation to these proposals, taking place on Tuesday 19 & Wednesday 20 January 2021.

We have reviewed the Agenda for each day, and it is our view that we have no significant outstanding concerns with the broad issues outlined for discussion. East Suffolk Council is the lead coast protection authority at the landfall location, while the highlighted flood risk issues primarily concern surface water management and so fall within the remit of Suffolk County Council as Lead Local Flood Authority. All other issues tabled for discussion appear to be outside our remit.

In light of this, and significant workload and staffing pressures, we regretfully send our apologies as we will be unable to resource attendance at either of these sessions.

We are, of course, happy to review any relevant questions arising from the sessions and provide written responses in a timely manner.
