The level of traffic of 300 lorries per day 6 days a week will a) clog up the A12 at the Aldeburgh turn of with or without traffic lights b) will require traffic lights at Snape junction or tailbacks either side of Saxmundham Rd will be endless c) In any event grid lock at the Tesco roundabout will be inevitable. This ignores the extra noise, pollution and stress all this will bring about. What with one thing Scottish Power and another Sizewell C the Suffolk Heritage Coast will be ruined. Regards Martin Binning
