**Subject:** Scottish Power - SASES Nos. 20024106 (EA1N) & 20024110 (EA2) - Exceptional Issue Specific Hearing(s)  
**Date:** 01 February 2021 09:01:34

---

SASES will be putting in a formal request at Deadline 5 for exceptional issue specific hearing(s) to address the subject of noise and flood risk at the substations site, notwithstanding the cost of instructing counsel and experts to attend such a hearing.

In summary the reasons are that:

1. these topics are of the greatest concern to the community of Friston hence the decision to invest in expert advice on these topics;
2. these topics are probably the two most technically complex subjects that require thorough examination to enable the issues to be properly interrogated;
3. there is a clear and substantial difference of opinion between SASES's experts and the Local Authorities' experts on the one hand and the the Applicants' consultants on the other.
