## Glossary of Acronyms

DNO	Distribution Network Operators
-----	--------------------------------

## Glossary of Terminology

Applicants	East Anglia TWO Limited / East Anglia ONE North Limited
East Anglia ONE North project	The proposed project consisting of up to 67 wind turbines, up to four offshore electrical platforms, up to one construction, operation and maintenance platform, inter-array cables, platform link cables, up to one operational meteorological mast, up to two offshore export cables, fibre optic cables, landfall infrastructure, onshore cables and ducts, onshore substation, and National Grid infrastructure.
East Anglia TWO project	The proposed project consisting of up to 75 wind turbines, up to four offshore electrical platforms, up to one construction, operation and maintenance platform, inter-array cables, platform link cables, up to one operational meteorological mast, up to two offshore export cables, fibre optic cables, landfall infrastructure, onshore cables and ducts, onshore substation, and National Grid infrastructure.
National Grid infrastructure	A National Grid substation, cable sealing end compounds, cable sealing end (with circuit breaker) compound, underground cabling and National Grid overhead line realignment works to facilitate connection to the national electricity grid, all of which will be consented as part of the proposed East Anglia TWO / East Anglia ONE North project Development Consent Order but will be National Grid owned assets.
National Grid overhead line realignment works	Works required to upgrade the existing electricity pylons and overhead lines (including cable sealing end compounds and cable sealing end (with circuit breaker) compound) to transport electricity from the National Grid substation to the national electricity grid.
National Grid overhead line realignment works area	The proposed area for National Grid overhead line realignment works.
National Grid substation	The substation (including all of the electrical equipment within it) necessary to connect the electricity generated by the proposed East Anglia TWO project / East Anglia ONE North project to the national electricity grid which will be owned by National Grid but is being consented as part of the proposed East Anglia TWO / East Anglia ONE North project Development Consent Order.
National Grid substation location	The proposed location of the National Grid substation.
Onshore cable corridor	The corridor within which the onshore cable route will be located.
Onshore substation location	The proposed location of the onshore substation for the proposed East Anglia TWO project / East Anglia ONE North project.

# Applicants' Comments on UK Power Network (Operations) Limited

## 1 Introduction

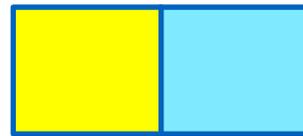

1. This document details the Applicants' comments on UK Power Networks (Operations) Limited (REP4 -123).
2. This document is applicable to both the East Anglia ONE North and East Anglia TWO applications, and therefore is endorsed with the yellow and blue icon used to identify materially identical documentation in accordance with the Examining Authority's procedural decisions on document management of 23<sup>rd</sup> December 2019. Whilst for completeness of the record this document has been submitted to both Examinations, if it is read for one project submission there is no need to read it again for the other project.

## 2 Applicants' Comments on UK Power Networks – Deadline 4 Submissions

Table 1 Applicants' Comments on UK Power Networks - Deadline 4 Submissions

ID	Written Representation	Applicants' Comments
1.	<p>I am writing on behalf of UK Power Networks (Operations) Limited, the occupier of premises in the land to be acquired and/or temporarily used under the above Order.</p> <p>It is also entitled to the benefit of rights in, over, on or under such land and is the owner of Electric Lines and/or Electrical Plant (as those terms are defined in Section 64(1) of the Electricity Act 1989) in, on, over or under the land to be acquired and/or temporarily used under the above Order.</p> <p>These premises, rights and apparatus have been acquired for and are used for the purposes of its statutory undertaking.</p>	<p>No further comments.</p>
2.	<p>UK Power Networks (Operations) Limited and the relevant DNO object to the making and confirmation of the Order unless at the cost of the acquiring authority there are first provided to it on</p> <p>no less favourable tenure suitable alternative sites and suitable alternative rights in, on, over or under land in substitution to those to be acquired and/or temporarily used under the above Order and in, on over or under which there are first installed and commissioned Electric Lines and Electrical Plant in substitution for those in the land to be acquired and/or temporarily used under the above Order, before that land is acquired and/or temporarily used so that my client can carry out its statutory functions and contractual obligations no less efficiently than previously.</p> <p>Please treat this letter as an objection by UK Power (Operations) Limited and the relevant DNO to the acquisition under the above Order</p>	<p>It is the view of Applicants that protective provisions in the <b>draft DCO</b> (APP-023) will safeguard the undertaker's interests and apparatus.</p> <p>Additionally, the Applicants are currently negotiating a Compromise Agreement and Asset Protection Agreements with the intention to ensure that as far as reasonably practicable the Projects are constructed and operated in such a way to enable UK Power Networks (Operations) Limited to fulfil its statutory functions as an electricity distributor in a manner not materially less efficient than previously.</p>

ID	Written Representation	Applicants' Comments
	<p>of the premises, rights and apparatus mentioned above because their acquisition will be detrimental to the carrying on of its undertaking.</p> <p>No alternative land, rights and apparatus for those proposed to be acquired under the above Order are in place</p>	
3.	<p>UK Power Networks (Operations) Limited and the relevant DNO object to the making and confirmation of the Order because it does not identify it as the owner or occupier of the land and the rights referred to above that are sought to be acquired: it merely refers to UK Power Networks (Operations) Limited.</p>	<p>UK Power Network (Operations) has confirmed that ownership of the affected apparatus is held by Eastern Power Networks. The Applicants has updated land schedules (ExQ1.3.2, ExQ1.3.3, ExQ1.3.4 and ExQ1.3.5) to reflect this and next and final iteration of the BoR will be updated accordingly.</p>
4.	<p>The relevant DNO reserves the right to amend or supplement its objections in the light of any information that later becomes available.</p> <p>The above objection(s) will be deemed to be withdrawn upon signature of an appropriate deed of Undertaking by an authorised signatory of the Acquiring Authority.</p>	<p>Noted</p>
