> As a local resident, I am deeply alarmed at the suggestion proposed at the recent open floor meeting that the route for lorries during construction should be via the A1094 as far as the Aldeburgh roundabout and left up the Leiston Road. This would be an environmental disaster and a serious danger to members of the public, especially the young and elderly crossing the road to the Aldeburgh Golf Club River Course and practice ground. It would equally cause serious traffic problems for vehicles coming in and out of Aldeburgh as well as people at the roundabout crossing the road to shop at the Co-Op and Tesco. The air and noise pollution would be to the detriment of local businesses all along the route. As for the idea of traffic lights at the Friday Street junction, the chaos for traffic on the A12 and the A1094 would be appalling, especially in the summer months. There is a perfectly good and straightforward route from the A12 at Saxmundham down to Leiston on the B1119 which would have far less of an impact on local businesses and the health and safety of locals. I wholeheartedly object to your suggested proposal and would ask you to seriously re-consider or simply abandon your plans. Your sincerely, Christopher Matthew
