Dear Planning Inspectorate,

It has come to our attention that road signs were put up on Grove Road, Knodishall IP17 1TJ on Thursday 8th April 2021. These warning signs said 'Work Access' next to the field at Little Moore Farm and Fareacre. They caused residents on Grove Road a lot of concern. After extensive research online we discovered they were put there by SPR and that 'Stop/Go' lights were to be installed on Grove Road and also in Knodishall. (Please see screen shots).

Please can you tell me:

1. Why these signs were put up?
2. Why they were put up with no prior warning or prior explanation?
3. Why we received emails from EA2 and EA1North after they went up explaining about the work in Thorpness?
4. Why the signs are in an area that was not intended to be used for cabling or for the substation?
5. Why the signs have been removed 48 hours later?

This only compounds the point yet again, that SPR have no regard for people living in the Friston and Knodishall area and feel they can bulldoze their way through without planning, concern or consent. Our properties are blighted, if we wanted to sell we would have difficulty, our future looks grim with extra traffic, more people and road closures and the beauty of the surrounding area and ancient woods will have been destroyed forever along with their habitats.

Kind Regards,

Jill and Peter Donker Curtius
