Dear Planning Inspectorate

Once more another submission as the date has been extended for the deadline for these hearings

Mixed feelings as exhaustion is setting in and although it means the delay brings closer the possibility of the government looking at other ways of connecting all these projects and others to offshore multi points the fact is Sizewell C DCO has commenced as of today so the community is being overloaded and overwhelmed.

I am going to state again that this DCO should either be refused or consent for the offshore element only is

granted so that the onshore element can be reappraised and other more acceptable sites ie brownfield sites used.

Sizewell C build is going to be more than enough for this area to contend with and no other Nationally Significant Projects should be entertained now or in the future

Thankyou

Mrs P Dorsey
