Dear Sirs

I was shocked to receive a letter informing me that, despite the fact that you, the Planning Inspectorate have yet to make your decision, nonetheless a lot of disruptive investigative work is being carried out by Scottish Power Renewables who at the same time are now seeking an extension to the planning process. These two actions are totally incompatible and give the impression that your decision on this disastrous project has already been made in their favour. I trust that this is not the case. The aggressive and bullying behaviour of this foreign owned Company needs to be halted.

Yours faithfully

Ian Henderson
