

21 June 2021

The Planning Inspectorate
National Infrastructure Directorate
Temple Quay House
Temple Quay
Bristol
BS1 6PN

Dear Sirs

East Anglia TWO Limited (the “Applicant”)
The Proposed East Anglia TWO Offshore Windfarm Order
Application Ref. EN010078

Error Corrections

A couple of errors have been identified in two of our Deadline 11 submissions (Substations Design Principles Statement (REP11-047) and Written Summary of Oral Case (ISH16) (REP11-083)). We have therefore corrected these documents and enclose updated versions, along with tracked versions against those submitted at Deadline 11.

In addition to the corrections, we have also made two further amendments to the Substations Design Principles Statement. The first is in Table 5.1 to address a request from East Suffolk Council and the second is to clarify text in Appendix A in response to a query raised by the Examining Authority in question R17QF.11 within the Rule 17 letter issued on 18 June 2021.

For ease, we enclose the following documents:

1. Substations Design Principles Statement (version 4);
2. Substations Design Principles Statement (tracked);
3. Written Summary of Oral Case (ISH16) (version 2); and
4. Written Summary of Oral Case (ISH16) (tracked).

The Applicant requests that the Examining Authority accept these as additional submissions into the Examination.

All of the documents enclosed with this submission are designed to be viewed electronically.

We would be grateful if you could kindly acknowledge safe receipt of this letter and the enclosures.
