| 20.115 | Question Cadent Limited | to Gas | Comment specifically on the protective provisions in Part 3, Schedule 16 of the dDCO as to whether they adequately protect your interests, including apparatus and land interests (gas distribution network) with reference to major accident hazard pipelines and below and above ground apparatus within the Order Limits. |
| | Response Cadent Limited | from Gas | No the Protective Provisions in Part 3 Schedule 16 of the dDCO are not yet in an agreed form and do not therefore adequately provide protection for Cadent Gas Limited's assets within the Order Land including the major accident hazard pipelines and below and above ground apparatus within the Order Limits. The key issues currently in dispute with the promoter are set out in our written representation and relate to the promoters request for a cap on the Indemnity Clause, which has been made, although it is not reflected on the face of the dDCO. There are also more minor details remaining to be agreed including timescales for submission of details to plant protection for approval. The issues in dispute are currently in negotiation with the Promoter and we hope to make further progress in the near future. Cadent Gas Limited have reserved their right to attend a hearing should the drafting of the protective provisions not be addressed to their satisfaction. We are happy to provide the ExA with an update of the issues outstanding between the parties, if any, in response to the ExA's second round of questions. |
