Dear Sir/Madam,

I refer to the application referenced above. NATS anticipates an impact upon its infrastructure and on its operation due to the proposed development. As such it has objected to the development.

NATS can confirm that it is investigating a technical mitigation for this site and that it is currently engaged with the applicant in respect of securing the necessary contractual agreement to ensure the implementation of this mitigation.

The mitigation investigation requires further technical work and obtaining the approval of affected stakeholders. We hope to be in a position to confirm the mitigation by the end of May. However, NATS is positively engaged with the applicant and has no reason to believe that an agreement is not forthcoming. As soon as we have confirmed the mitigation, we will be in a position to make a formal offer to the applicant; as soon as the agreement is entered into by the applicant, NATS will be in a position to withdraw its objection, subject to the inclusion of the agreed planning conditions/requirements in any planning permission granted. In the meantime, however, NATS must maintain its objection.

I trust this clarifies our position, but should you require any further information or an update at any time, do not hesitate to contact me.

Regards

Alasdair Auld
