Dear Ms Evans

I have been asked to comment on the applicants document 'Consideration of potential impacts related to continuous periods of operation', submitted at Deadline 8.

This document relates to construction noise at land fall, cable corridor and the substation outside normal working hours, and in particular during weekends and unsociable hours (11:00pm – 07:30). I believe my colleague Mr Grimley may already have commented, however I have looked at the document and am satisfied that providing mitigation methods are employed BS5228 Thresholds can be met.

Kind regards
