The Norwegian fisheries authorities want to take part in the transboundary process and receive correspondence. For practical reasons, correspondence should be sent directly to the fisheries authorities through postmottak@fiskeridir.no, with a copy to the Norwegian Environment Agency (mari.lise.sjong@miljodir.no and postmottak@miljodir.no).

The Norwegian Environment Agency does not want to take actively part in the process, but wants to be informed on relevant studies, as mentioned in the submission. Receiving copies of the correspondence with the fisheries authorities would probably be sufficient for this purpose.

Miss Sjong

Thank you for your email. The requirement to notify and consult on Transboundary issues is a duty on a State not an Applicant. As such, the Planning Inspectorate undertake this on behalf of the Secretary of State. Therefore the notification you have received from the Planning Inspectorate is the formal notification. Notwithstanding this, there should be no reason why you cannot pass on your letter previous sent to DONG Energy to us.

Kind regards

Katherine

Dear Katherine,

The Norwegian Environment Agency took on the position as Point of Contact for the Espoo
Convention in January this year. We received information about the Hornsea project in February
from Dong Energy. We have treated this – maybe incorrectly – as a formal notification according to
the Espoo convention, and provided Dong Energy with an answer accordingly. If I understand this
correctly, your current e-mail of 27th of June is actually the formal notification according to the
convention. Would it then be OK if we pass on to you a copy of the letter earlier sent to Dong?
