Dear,

As the federal point of contact, amongst others in charge for marine environment matters, I send you this email to confirm that Belgium intends to participate in the EIA procedure under Regulation 24 in relation to this Proposed Development. This doesn't mean that we will send contributions in every stage of the process, but we would like to be kept informed and get the opportunity to intervene, where appropriate.

Thanks for sending further communication on this project to my email address, since I will be the Belgian coordinator for this project.

Regards,  
Steven
