Hope this is clearer:

FAO Examining Authority

Norfolk County Council (NCC) Response to [Qu. 1.13.24 \(page 88\)](#)

NCC Identification No: [20020350](#).

Background - Article 14 would enable the undertaker to discharge water into watercourses, drains or sewers with the approval of the owner. Approval by the owner would be deemed to have been given if no decision was notified within 28 days.

Question - Would the drafting of Article 14 provide a reasonable timescale for such requests to be properly considered?

NCC Response - If they needed consent for 'works to ordinary watercourses' (i.e open cut not HDD), it would be deemed if no response from us 8 weeks from receipt of any payment.

With regard to discharge we would wish to see proof of connection to the wider network and capacity to convey flow. But this should be within their FRA / Drainage strategy.

Regards

Lucy Perry BEng(Hons) IEng MICE MCIWEM Flood Risk Officer

Subject: RE: Hornsea Project Three - Examiners Deadlines and Questions (Rule 8 letter)

Dear Ms Perry,

Thank you for your email.

Could I check whether your response to the ExA's questions was supposed to be attached to this email? Could you also clarify whether the text regarding flood and water management is a response to one of the ExA questions or a query directed to the ExA.

Kind regards

Karl-Jonas Johansson

Subject: Hornsea Project Three - Examiners Deadlines and Questions (Rule 8 letter)

Responses to the Examining Authorities' (ExA) questions

The County Council has now received from the Examining Authority (ExA) the Rule 8 letter setting out:

- (a) The timetable for the hearing and deadlines for submitting evidence; and
- (b) Questions raised by the ExA to Interested parties (Including question to the County Council).

ExA Questions - I have attached the Questions raised by the ExA, which extends to 125 pages.

Fortunately I've only identified 10 questions directed to the County Council:

Qu 1.9.4 (page 63) – Highways / PRoW;

Qu 1.11.1 (Page 70) – Highways/Transport;

Qu 1.11.14 (Page 74)- Highways;

Qu 1.11.22 (page 77) – Highways;

Qu 1.11.25 (page 78) – Highways;

Qu 1.13.8 (Page 84) – Possibly one for Archaeology;

Qu. 1.13.21 (page 88) – Highways;
Qu 1.13.23 (page 88) - Highways;
Qu. 1.13.24 (page 88) – LLFA;
Qu 1.13.46 (Page 94) – Archaeology.

Please see below your response to this consultation:

There do not appear to be any issues for NCC regarding flood and water management.

However :

Article 14 would enable the undertaker to discharge water into watercourses, drains or sewers with the approval of the owner. Approval by the owner would be deemed to have been given if no decision was notified within 28 days.

Would the drafting of Article 14 provide a reasonable timescale for such requests to be properly considered?

If they needed consent for ‘works to ordinary watercourses’ (i.e open cut not HDD), it would be deemed if no response from us 8 weeks from receipt of any payment.

With regard to discharge we would wish to see proof of connection to the wider network and capacity to convey flow. But this should be within their FRA / Drainage strategy.
