Dear Kay, K-J

We are pleased to enclose Ørsted Hornsea Project Three (UK) Ltd (“the Applicant”) response to Deadline 3, Friday 14 December 2018. These documents are being issued over a series of emails, each email containing a pdf file or files. The **last** email to be issued by the Applicant will contain a supporting file tracking sheet – to help the ExA ensure that it has received each email transmission.

Please acknowledge safe receipt of these documents. If we can be of any assistance in that regard, please do not hesitate to contact myself or Andrew Guyton.

Best regards,
Dr Dominika Chalder PIEMA

1. Introduction

Purpose

- 1.1 This document has been prepared in order to provide the Examining Authority (ExA) with the final position on Statements of Common Ground (SoCG) between the Applicant and statutory consultees, statutory undertakers and interested parties in relation to the proposed wind farm project.
- 1.2 This report is a live document during the examination and will provide to ExA with a final position on the commonality on specific points between SoCG at Examination Deadline 8 (26th March 2019).

Structure

- 1.3 The remainder of this report is structured as follows:
- **Section 2** details the structure of each SoCG document and provides an up to date list of SoCGs.
 - **Section 3** sets out the status of each SoCG.
 - **Section 4** sets out the commonality between SoCGs and a summary of the final position as well as the latest position on protective provisions that will be submitted at Deadline 8.

2. Position

Structure of SoCGs

- 2.1 To ensure consistency in the approach taken to documenting matters agreed, matters subject to further negotiation or matters not agreed, each of the SoCGs adopted a standard format in order to provide clarity to other parties and ultimately the ExA.
- 2.2 Each SoCG was broadly structured in the following way:
- Section 1 provided an introduction to the SoCG its approach and a description of its purpose.
 - Section 2 provided details the consultation undertaken
 - Section 3 set out the agreement log and progress.
 - Section 4 set out a summary of matters which were subject to negotiation or not agreed.

List of SoCGs

- 2.3 In accordance with guidance published by the Department of Communities and Local Government¹ (DCLG), the Applicant prepared SoCGs with a number of statutory consultees, statutory undertakers and interested parties during the preparation of the DCO and during the Examination stage.
- 2.4 The SoCGs identify matters on which parties agree and to document the position of each party where agreement was not reached. The Table 2.1 provides the list of SoCGs that the Applicant prepared with various bodies.

SoCGs not considered necessary

2.5 For those parties where Table 2.1 identifies that a SoCG is not considered to be necessary, a Letter of Comfort (LoC) or Position Statements (PS) were prepared. The matters on which the parties remain in discussion are limited in scope and so the LoCs and PS were considered to be more appropriate than SoCG in order to capture status of discussions. The outline of each LoC / PS is provided below in the Table 2.2:

Table 2.2: Status of LoCs and PS at Deadline 3 (14th Dec 2018).

These discussions are ongoing, with progress made on the issues raised. It is hoped a Position Statement between the parties will be provided to the Ex.A <u>as soon as practicably possible</u> .
Neptune E&P UK Limited	Summary: LoC provided at Deadline 1. Neptune operate Cygnus gas field. Helicopters service Cygnus gas field installations from Norwich International Airport. Direct flights will pass over Hornsea Project One and Hornsea Project Two. In cold weather conditions icing on helicopter blades may occur requiring helicopters to drop altitude. In weather with good visibility, a lower flight altitude would require a short deviation through the corridor between Hornsea Project One, Two, and Hornsea Three. In low visibility conditions, a larger deviation around Hornsea Three would be required. Dialogue relating to the implications for carrying out flight deviations, including cost implications and exact routing requirements, are ongoing. Position: LoC signed with outstanding matters on 01 November 2018.
Shell UK Limited	Position Statement: Not provided at Deadline 23 . The Applicant has engaged Shell in order to resolve the issues raised in the Shell Relevant Representation (RR-150). These discussions are ongoing and significant progress has been made on all issues raised by Shell. A Position Statement between the parties will be provided to the ExA as soon as practicably possible.

3. Status

Summary of current position

- 3.1 This section provides the ongoing position of each SoCG. Where further progress will be made with a party, the updated version of the SoCG will be submitted alongside this document at each Deadline. Final position of SoCG will be submitted at Deadline 8 on 26th March 2019.
- 3.2 Table 3.1 provides a high-level position and where necessary includes further detail to aid understanding of the ExA. In summary the high-level positions used in Table 3.1 are as follows:
- Final Signed SoCG all matters agreed – The final SoCG has been signed by both parties and all matters are agreed.
 - Final Signed SoCG with matters outstanding – The final SoCG has been signed by both parties, and the remain matters outstanding that Applicant and the other party agree will not be resolved during Examination.
 - SoCG in draft – The final SoCG was drafted by the Applicant, it has been shared with the other party and comments have been provided.
- 3.3 Draft SoCGs with the following stakeholders have not been provided with the Applicant's response to Deadline 23, although discussions are ongoing and the Applicant is continuing to develop SoCGs with these stakeholders for submission to the Ex.A:
- Natural England: Benthic Ecology and Marine Processes Matters: Natural England raised a number of questions in relation to benthic ecology and marine processes in their Relevant Representation (RR-097). The Applicant provided draft responses and clarifications on these to Natural England, together with clarification notes (presented at Appendix 5, 6 and 11 to the Applicant's response to Deadline 1), September and October 2018, with the aim of addressing the questions raised. However, due to Natural England's resource constraints, it has not been possible to meet with Natural England to discuss these matters. The Applicant and Natural England are continuing to develop a SoCG for Benthic Ecology and Marine Processes Matters and will provide this to the Ex.A as soon as possible during the Examination Phase.

- Natural England: Ornithological Matters: Natural England raised a number of questions in relation to ornithology in their Relevant Representation (RR-097). The Applicant provided draft responses and clarifications on these to Natural England, together with clarification notes (presented at Appendix 3, 4, 7, 8, 9 and 10 to the Applicant's response to Deadline 1) in September and October 2018, with the aim of addressing the questions raised. However, due to Natural England's resource constraints, it has not been possible to meet with Natural England to discuss these matters. The Applicant and Natural England are continuing to develop a SoCG for Ornithological matters and will provide this to the Ex.A as soon as possible during the Examination Phase. At Issue Specific Hearing 2, the Ex.A advised in order to move discussions on Ornithology forward, the Applicant should produce an Ornithological roadmap with Natural England. This has been submitted at Deadline 3 (Appendix 16) with the intention that this can remain a live document, to be updated throughout the Hornsea Project Three examination phase.
- ~~The RSPB: RSPB raised a number of questions in relation to Ornithology in their Relevant Representation (APP 113). The Applicant provided clarifications on these to the RSPB during a meeting on 8 August 2018, together with clarification notes (presented at Appendix 3, 4, 7, 8, 9, 10 and 11 to the Applicant's response to Deadline 1) sent in October 2018, with the aim of addressing the questions raised. The Applicant has held a number of calls to agree updates with the RSPB on the SoCG. Following the latest call on 12th November an updated SoCG was sent to RSPB for approval. While RSPB did not object to this latest version in principle, it was not possible for the RSPB legal team to sign the document in time for submission at Deadline 2. For Deadline 2 therefore this document remains in draft form and has not therefore been signed by either party. The Applicant will pursue obtaining a signed version of the document following this deadline.~~
- Historic England: The Applicant is in ongoing dialogue with Historic England in relation to developing a SoCG. The Applicant has met with Historic England to discuss outstanding concerns as raised in their Relevant Representation and following this meeting, the Applicant provided a draft SoCG to Historic England for input. However, due to Historic England resource constraints, it has not been possible to produce a draft SoCG to meet Deadline 1 and 2. The Applicant and Historic England met on the 12th Dec 2018 are continuing to discuss further develop a SoCG. There were no fundamental disagreement raised in regards to SoCG and will provide this to the Ex.A as soon as possible during the Examination Phase.
