15th January 2019

Dear David Prentis,

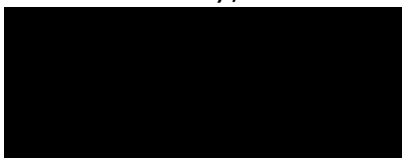

Application by Orsted Hornsea Project Three (UK) Ltd for an Order Granting Development Consent for the Hornsea Project Three Offshore Wind Farm: Deadline 4 submission

The following is offered in response to questions raised with respect to deadline 4.

Q2.6.1: The cumulative effects assessment issues remain under discussion and will be updated via the Statement of Common Ground which we expect will be submitted in time for deadline 5.

Q2.6.3: We understand that Orsted will provide an updated outline Fisheries Coexistence and Liaison plan and that will among other amendments include clarification that exposed cables will be reported. Whilst we welcome the clarification, we maintain that the matter should be explicitly secured via the DCO/DML as detailed in our response to deadline 3.

Yours sincerely,

Dale Rodmell
Assistant Chief Executive
