Subject: Hornsea Project Three (UK) Ltd response to Deadline 6 (Part1)

Dear Kay, K-J

We are pleased to enclose Ørsted Hornsea Project Three (UK) Ltd (“the Applicant”) response to Deadline 6, Friday 8th Feb 2019. These documents have been prepared by the Applicant and have been produced in response to the Examining Authority’s (ExA) letter of 9 October 2018 (“the Rule 8 letter”).

These documents are being issued over a series of emails, each email containing a pdf file or files. The **last** email to be issued by the Applicant will contain a supporting file tracking sheet – to help the ExA ensure that it has received each email transmission.

Please acknowledge safe receipt of these documents.

If we can be of any assistance in that regard, please do not hesitate to contact myself or Andrew Guyton.

Best regards,
Dr Dominika Chalder PIEMA

1. Introduction

Purpose

- 1.1 This document has been prepared in order to provide the Examining Authority (ExA) with the final position on Statements of Common Ground (SoCG) between the Applicant and statutory consultees, statutory undertakers and interested parties in relation to the proposed wind farm project.
- 1.2 This report is a live document during the examination and will provide to ExA with a final position on the commonality on specific points between SoCG at Examination Deadline 8 (26th March 2019).

Structure

- 1.3 The remainder of this report is structured as follows:
- **Section 2** details the structure of each SoCG document and provides an up to date list of SoCGs;
 - **Section 3** sets out the status of each SoCG; and
 - **Section 4** sets out the commonality between SoCGs and a summary of the final position as well as the latest position on protective provisions that will be submitted at Deadline 8.

2. Position

Structure of SoCGs

- 2.1 To ensure consistency in the approach taken to documenting matters agreed, matters subject to further negotiation or matters not agreed, each of the SoCGs adopted a standard format in order to provide clarity to other parties and ultimately the ExA.
- 2.2 Each SoCG was broadly structured in the following way:
- Section 1 provided an introduction to the SoCG its approach and a description of its purpose.
 - Section 2 provided details the consultation undertaken
 - Section 3 set out the agreement log and progress.
 - Section 4 set out a summary of matters which were subject to negotiation or not agreed.

List of SoCGs

- 2.3 In accordance with guidance published by the Department of Communities and Local Government¹ (DCLG), the Applicant prepared SoCGs with a number of statutory consultees, statutory undertakers and interested parties during the preparation of the DCO and during the Examination stage.
- 2.4 The SoCGs identify matters on which parties agree and to document the position of each party where agreement was not reached. Table 2.1 provides the list of SoCGs that the Applicant prepared with various bodies.

SoCGs not considered necessary

2.5 For those parties where Table 2.1 identifies that a SoCG is not considered to be necessary, a Letter of Comfort (LoC) or Position Statements (PS) were prepared. The matters on which the parties remain in discussion are limited in scope and so the LoCs and PS were considered to be more appropriate than SoCG in order to capture status of discussions. The outline of each LoC / PS is provided below in the Table 2.2:

Table 2.2: Status of LoCs and PS at Deadline ~~56~~ (-23rd January- 8th February 2019).

| Party | LoC summary and position |
|--|--|
| National Grid Electricity Transmission PLC | LoC Position: Not provided at Deadline 5. LoC to be provided if required at later deadlines as negotiations are ongoing. Please refer to updated Appendix B and C of the Statement of Reasons for the latest position. Final terms of the side agreement between National Grid Electricity and the Applicant are nearly complete. Heads of Terms regarding the land option agreement are now agreed. The draft option agreement and draft lease have been issued to National Grid and are currently being reviewed. The Applicant expects to conclude negotiations and complete the option agreement before the end of the examination. |

| UK Power Networks | <p>LoC Position: Not provided at Deadline 5. LoC to be provided if required at later deadlines as negotiations are ongoing. Please refer to updated Appendix C of the Statement of Reasons for the latest position. Final terms of a side agreement between Eastern Power Networks and the Applicant are now agreed and engrossments are being prepared. The Applicant expects to complete the agreement before the end of examination.</p> |
| Environment Agency (Asset Owner) | <p>Position: Not provided at Deadline 56. LoC to be provided if required at later deadlines as negotiations are ongoing. Please refer to updated Appendix C of the Statement of Reasons for the latest position.</p> |
| ConocoPhillips (U.K) Limited | <p>Position Statement: The Applicant has engaged with ConocoPhillips in order to resolve the issues raised in the ConocoPhillips Relevant Representation (RR-036). During recent consultation, it was suggested by ConocoPhillips that no further action was required by either party in the context of the examination. ConocoPhillips have raised three main issues in their Relevant Representation (RR-036), crossing and proximity agreements, decommissioning of ConocoPhillips assets and Radar Early Warning Systems (REWS) on ConocoPhillips platforms. Crossing and proximity agreements will be entered into once detailed design of HOW03 project has progressed post consent and closer to time of construction (and not within the timeframe of the examination). Based on ConocoPhillips' current decommissioning schedules Hornsea Project Three construction would not impede decommissioning activities as there is no overlap. Dialogue will continue between the parties to allow for any changes from what is currently planned. In regard to REWS ConocoPhillips informed the Applicant on the 5th November, 2018, that they had concluded a software upgrade to the REWS system is no longer required, and need not be provided by Hornsea Three in connection with the construction/operation of the project.</p> |

| Party | LoC summary and position |
|------------------------|--|
| Neptune E&P UK Limited | <p>Summary: LoC provided at Deadline 1. Neptune operate Cygnus gas field. Helicopters service Cygnus gas field installations from Norwich International Airport. Direct flights will pass over Hornsea Project One and Hornsea Project Two. In cold weather conditions icing on helicopter blades may occur requiring helicopters to drop altitude. In weather with good visibility, a lower flight altitude would require a short deviation through the corridor between Hornsea Project One, Two, and Hornsea Three. In low visibility conditions, a larger deviation around Hornsea Three would be required. Dialogue relating to the implications for carrying out flight deviations, including cost implications and exact routing requirements, are ongoing.</p> <p>Position: LoC signed with outstanding matters on 01 November 2018.</p> |
| Shell UK Limited | <p>Position Statement: Signed Position Statement -provided at Deadline 5.</p> |
| Land Interest Groups | <p>Position: Not provided at Deadline 64 LoC to be provided if required at later deadlines as negotiations are ongoing. Please refer to updated Appendix A of the Statement of Reasons for the latest position.</p> |

3. Status

Summary of current position

- 3.1 This section provides the ongoing position of each SoCG. Where further progress will be made with a party, the updated version of the SoCG will be submitted alongside this document at each Deadline. Final position of SoCG will be submitted at Deadline 8 on 26th March 2019.
- 3.2 Table 3.1 provides a high-level position and where necessary includes further detail to aid understanding of the ExA. In summary the high-level positions used in Table 3.1 are as follows:
- Final Signed SoCG all matters agreed – The final SoCG has been signed by both parties and all matters are agreed.
 - Final Signed SoCG with matters outstanding – The final SoCG has been signed by both parties, and the remain matters outstanding that Applicant and the other party agree will not be resolved during Examination.
 - SoCG in draft – The final SoCG was drafted by the Applicant, it has been shared with the other party and comments have been provided.
- 3.3 Draft SoCGs with the following stakeholders have not been provided with the Applicant's response to Deadline [64](#), although discussions are ongoing and the Applicant is continuing to develop SoCGs with these stakeholders for submission to the Ex.A:

- ~~Natural England: Benthic Ecology and Marine Processes Matters: Natural England raised a number of questions in relation to benthic ecology and marine processes in their Relevant Representation (RR-097). The Applicant provided draft responses and clarifications on these to Natural England, together with clarification notes (presented at Appendix 5, 6 and 11 to the Applicant's response to Deadline 1), September and October 2018 and through subsequent material submitted at Deadline 3, with the aim of addressing the questions raised. However, due to Natural England's resource constraints, it has not been possible to meet with Natural England to discuss these matters. The Applicant and Natural England are continuing to develop a SoCG for Benthic Ecology and Marine Processes Matters and will provide this to the Ex.A as soon as possible during the Examination Phase.~~
- ~~Natural England: Ornithological Matters: Natural England raised a number of questions in relation to ornithology in their Relevant Representation (RR-097). The Applicant provided draft responses and clarifications on these to Natural England, together with clarification notes (presented at Appendix 3, 4, 7, 8, 9 and 10 to the Applicant's response to Deadline 1) in September and October 2018 and through subsequent material submitted at Deadline 3, with the aim of addressing the questions raised. However, due to Natural England's resource constraints, it was not possible to meet with Natural England to discuss these matters as early as hoped. At Issue Specific Hearing 2, the Ex.A advised in order to move discussions on Ornithology forward, the Applicant should produce an Ornithological roadmap with Natural England. This has been submitted at Deadline 3 (REP3-025) and then updated and submitted again for Deadline 5 (Appendix 12) with the intention that this can remain a live document, to be updated throughout the Hornsea Project Three examination phase. In line with the roadmap, a phone discussion took place following Deadline 4 between the Applicant and Natural England to discuss ornithological matters. As requested by the Ex.A in Question 2.2.1, the Applicant is developing a SoCG for Ornithological matters with Natural England to provide to the Ex.A for Deadline 6.~~
- The ExA requested submission of SOCGs with Natural England for Ornithological matters and Benthic Ecology and Marine Processes Matters for Deadline 6. In the intervening period since the second set of hearings the Applicant has continued to engage with Natural England. Natural England issued comments on the SoCGs to the Applicant on 07/02/2019. The Applicant has prioritised the review and update of these documents, but it has not been possible to finalise these SoCG ready for submission at Deadline 6 as the proposed drafting amendments included open commentary and adjustment on areas of previous agreement. The Applicant will submit updated SoCG into the ExA as soon as feasible following Deadline 6.
- Historic England: The Applicant is in ongoing dialogue with Historic England in relation to developing a SoCG. The Applicant has met with Historic England to discuss outstanding concerns as raised in their Relevant Representation and following this meeting, the Applicant provided a draft SoCG to Historic England for input. However, due to Historic England resource constraints, it has not been possible to produce a draft SoCG to meet Deadline 1 and 2. The Applicant and Historic England met on the 12th Dec 2018 to discuss further a SoCG. There were no fundamental disagreement raised in regards to SoCG and the Applicant will provide this to the Ex.A as soon as possible during the Examination Phase.

4. Commonality

Summary

4.1 This section of the report provides a summary of principal issues covered in the SoCGs and demonstrates where there is commonality in the topics or matters being discussed with the various parties at Deadline 1.

4.2 Table 4.1 presents the summary of commonality on each covered topics within the various SoCGs and their position as follows:

| | |
|--|--------------------------------------|
| | Matter agreed |
| | Matter subject to further discussion |
| | Matter not agreed |

4.3 Where a matter is not relevant to a party, it was not included within SoCG and it is not covered in the Table 4.1 and shown as blank.

4.4 At Deadline 8, following the Table 4.1, this document will include a “Final Position” and “Protective Provisions” sections which will provide a summary of the final position of SoCG.

4.5 Table 4.1 in, this document will include a “Final Position” and “Protective Provisions” sections which will provide a summary of the final position of SoCG.
