Subject: Traffic Route Concerns
Date: 13 March 2019 12:59:49

Hello,

We would like to register some concerns regarding potential traffic disruption for our staff and delivery vehicles to our manufacturing site in Cawston

The proposed route does not seem suitable given the increased HGV activity anticipated due to the project through a (in reality) single lane in the High Street of Cawston

The narrow sections and hare pin bends on Chapel Street & Reepham Road are also of concern and will be affected by the project

Please could I be kept informed of progress on the projects

Regards,
John
