---

I refer to the estimated traffic movements and on-going development of management measures through Cawston Village Feb 2019 document and would like to register my concerns regarding the apparent significant effect upon the lives of the residents (we live less than a mile from Cawston). There would seem to be likely to be long term disruption to our lives should these plans go ahead, together with, I would suggest, potential serious effects upon the value of residential properties, in the affected area. A response to these concerns would be much appreciated.

Alison and Michael Barrett
