Dear Examining Authority,

The proposed changes make no material difference to HSE's previous advice.

Kind regards,

Dave Adams

Dear Sir or Madam

Planning Act 2008 (as amended) and The Infrastructure Planning (Examination Procedure) Rules 2010 (as amended) – Rule 17

Application by Sembcorp Utilities (UK) Limited for an Order Granting Development Consent for the Proposed Tees CCPP Project

Request for further information from all Interested Parties

Proposed Changes to the Original Application

On the 2 May 2018 the Applicant submitted a request to change its original Application. The details of these proposed changes are the following aspects of the Application:

- an increase in the maximum height of the turbine hall buildings from 25 metres ('m') to 32 m; and
- an increase in the maximum height of the HRSG buildings from 44 m to 45 m.

The above comprise of Work No.1A (a) and Work No. 1A (b) of the draft DCO [Examination Library Ref: APP-005]. The current maximum heights (25 m and 44 m respectively) are set out in Schedule 2, Requirement 4 of the draft DCO.

I am now inviting comments on these changes, and will need to consider whether these represent material changes to the Application that was the subject of public consultation and the Environmental Impact Assessment.

Details of the proposed change can be viewed on the Tees CCPP project page:

<https://infrastructure.planninginspectorate.gov.uk/projects/north-east/tees-ccpp/?ipcsection=docs&stage=4&filter1=Post+Submission+Changes>

To assist me in my consideration of these changes, I would welcome comments on them, and in particular on whether they represent a material change to the application such that I should not accept them.

Please submit any comments that you wish to make on these changes by email to TeesCCPP@Pins.gsi.gov.uk or in writing to the above address by **Tuesday 29 May 2018**.

If you have any further queries, please do not hesitate to contact us.

Yours faithfully

David Richards
Examining Authority
