

1. Should Issue Specific Hearings still be held, we do feel that the concerns laid in Minster-on-Sea Parish Council's original statement which was read out at the first ExA's Hearing should be examined in detail.

These include projected increases in traffic congestion, with the public health implications of associated vehicular exhaust emissions plus air-borne toxic flue gas emissions. However, in view of the current and on-going situation with Covid-19 we think the risks inherent in physical meetings are unacceptable, and they should not therefore be held.

2. If others were to agree, no arrangements for ISHs would be necessary.

3. We are confident that Examinations could proceed effectively by further written questions alone, providing additional information to support initial submissions, as above.
